*Men's Riptide Jacket*

## REDEFINE RECREATION

Even the most laid-back adventures risk facing unpredictable elements. The newly updated Riptide is a fully featured splash jacket that gives recreational paddlers advanced waterproof-breathable protection. A kayak overskirt and neoprene wrist gaskets keep water out, and the articulated hood and half-zip neck make adapting to conditions easy. Jet-boiled coffee on a rocky beach just tastes better, and in the Riptide, you'll never wish you had stayed on the couch.

*Women's Riptide Jacket*

# EDITO

It never fails to amaze us how quickly paddlesports transitions from a hobby to a defining aspect of our identity. There are transitional stages where paddling is a sport or a passion, but for many of us, it will eventually change who we become and how we see the world.

As we delve deeper into learning, this passion of ours can quickly rule our lives: dictating what we do when (when the wind is up, the waves are in, or the rivers are running, we go), who we connect with most frequently, and where we spend our free time and income.

In the past few years, our industry has seen incredible growth. There has been an influx of numbers and paddlesport participants, yes. There has also been growth within our industry as we took the last few years to reflect on our strengths and weaknesses and consider anew what we want for our future and who we count as part of our community.

By advocating for better access to the outdoors and continuing to develop adaptive boards, boats, and paddles, we welcome more with disabilities to the water. We have ongoing work to continue to develop education and access on this front, but our industry will be stronger for it.

In extending our perception of where paddlesports can happen, we're looking at urban centers, extending paddlesports to new communities, including ethnic minorities and indigenous peoples. In our efforts to become more inclusive, we have welcomed new people and better celebrated all those already on the water.

We discovered new ways to enjoy our favorite spots through the growing rise of foiling and met new people through the increasing crossover of the paddlesport communities with wind and surf cultures. Meanwhile, the rising popularity of products like packrafts and fishing kayaks leads us to new waters.

With global environmental crises such as climate change continuing to impact our daily lives, we are coming to terms with the importance of the waste we generate and how easy it is to take finite resources for granted. As our awareness of our impact grows, we become better consumers, demanding products and packaging that can or has been re-

cycled. We want products that think responsibly about our environment. We become better consumers by learning to differentiate between what we want and need. Globally, many have already tightened budgets and tried to buy less, prioritizing the essentials in the face of inflated living costs.

Here's the thing about paddlesports, though. It is essential. Essential to our mental health, our overall well-being, and our ability to be the best version of ourselves. No matter how we use our paddles, our chosen disciplines continually push us outside our comfort zone. They showcase us at our best but never fail to humble or remind us where we can grow.

This year at the Paddle Sports Show, we celebrated our industry and all we have accomplished together. We welcomed new companies and saw innovations in materials, product performance, design, and safety, many of which are highlighted here in the pages of our annual Paddler's Guide. We connected with old friends and forged new partnerships. We reminisced over old times and made plans for new adventures. We attended conferences that made us think harder about our role as individuals and the influence we can have when we work together. We took another step forward as many pledged to work towards creating a circular economy. We acknowledged the challenges we face next and strategized how to tackle them. We head into the next season with plans to build on all we have learned over the past three years, knowing that the next time we see each other, the cycle of learning and sharing and growing will begin again.

For us, every paddling season starts with our annual Paddler's Guide. A collection of new products and classic favorites, displayed free of charge, as ever. As you flip through these pages or scroll online, we hope what you see gets you excited for the season ahead. We hope it gives direction for where and how best to spend your time, energy, and resources to improve yourself and your paddlesport community. We hope it makes you think. For old hats, we hope it makes you remember why we fell in love with paddlesports in the first place. For new learners, we hope it helps welcome you to this new sport, hobby, passion, or way of life.

## INTERVIEW: GERO PRIEBE

The Hobie name has long been synonymous with water sports, bringing to mind bright California beaches and sun-kissed surfing or sailing enthusiasts. With the advent of the MirageDrive, a pedal propulsion system, Hobie burst into the paddlesports market in the late '90s and soon became a major player and influence. We caught up with Gero Priebe, Hobie Kayak Europe Sales and Marketing Manager, to learn more about this iconic brand and its goals for the future.

©Hobie kayaks

**PGM: Paddlers Guide Mag: Gero, the name Hobie is iconic, nearly synonymous with watersports. Hobie is a surfing brand, a sailing brand, a kayaking brand. What is the driving force behind it all?**

**Gero Priebe:** I am glad you reference Hobie as a surfing brand. Our founder, Hobie Alter, modeled everything the surf lifestyle and watersport industry stands for today—having a great time in, on, and around the water. Hobie's roots lie in surfing and waterman culture; this helped strengthen our sailing brand, and is now doing the same for kayaking. Everyone at Hobie believes in our authentic, grassroots culture. We do what we love, and we love what we do. From surfboards and world-class catamarans to revolutionary pedal kayaks and stand-up paddleboards, Hobie is driven by a passion for delivering the most advanced, enjoyable, and accessible watersport products available.

**PGM: What role do paddlesports play in Hobie's income and strategy?**

**GP:** Paddlesports represent over 90% of Hobie's business these days. Our MirageDrive pedal system redefined kayaking and made Hobie the leader in high-end pedal kayaks, shifting our identity from a surf and sailing company to a major kayak manufacturer. The booming paddle sports sector and the fast-growing market for

**"ONLY A BRICK AND MORTAR  
RETAIL STORE CAN CONVINCE  
THIS CUSTOMER TO MAKE A  
BETTER CHOICE."**

light, car top-able boats will weigh majorly in Hobie's strategy and identity moving forward. We're as driven as ever to bring something new to the paddle sports market, which has always been our goal.

**PGM: Is Hobie Kayak Europe a subsidiary or an importer?**

**GP:** Hobie Kayak Europe has always been an independent distributor/importer of Hobie's kayak range in Europe. Last year in November, Hobie Kayak Europe was sold to Hobie Cat Company. Since then, we have been a full subsidiary and cover the entire Hobie kayak product range, minus the sailboats. This has been an important step for Hobie in Europe. Combining the whole product range – kayak, paddleboarding, surf, fishing – under one roof bolsters Hobie's strategy to be the leading supplier of watersport equipment and the number one lifestyle brand in Europe while providing a clear and consistent identity for the Hobie brand in Europe and beyond.

**PGM: What has been your experience during the whirlwind our industry has seen in the past few years? What do you anticipate for the future?**

**GP:** The trend and rise of interest in solo outdoor activities, such as paddle sports,

fishing, camping, etc., started before the first Covid restrictions were introduced. Luckily, our industry took advantage of the crisis, which gave – and this wasn't anticipated initially —the development of an outdoor lifestyle and solo outdoor sports the final nudge. The industry has witnessed a rise in demand for our products and lifestyle. We all want to get out kayaking, fishing, and sailing and make great memories. This won't change. Yes, the surge of consumer interest shows signs of cooling down, and next year might be difficult for our industry, given the energy crisis and geopolitical situation. However, demand is still higher than it was before the pandemic. That will not disappear. I am, therefore, very optimistic about the prospects for our industry.

**PGM: What are Hobie's market shares in paddlesports on the world and European levels?**

**GP:** Without diving too deep here, Hobie has the world's number one-selling fishing kayak, which is still the Hobie Mirage Outback. With the Outback and our MirageDrive, we have dominated the kayak fishing industry for 20 years, a growing, fresh new sector within paddlesports.

**PGM: Hobie has found success in the high-end side of the market and in welcoming newcomers. What's the secret recipe? Added value products, comfortable margins, great user experience?**

**GP:** There are many reasons for success, and I agree with all the ingredients you mention. However, our passion and customer experience are by far the most important. For any product that Hobie creates, the people who create it want it for themselves. The engineers working on new product designs and updates make them for themselves and continue developing products by using them. That is true across every Hobie product category, but it has an especially big role in kayak fishing. Take the MirageDrive, Hobie's hands-free pedal drive. It was first introduced in 1997 and has undergone several rounds of refining to meet the needs of Hobie customers better.

**PGM: Tell us more about the Mirage iEclipse, which you unveiled this year at the Paddle Sports Show**

**GP:** The original hardboard Eclipse was the world's first and favorite stand-up pedalboard and a prime example of Hobie's ability to innovate new ways to enjoy the water. The Eclipse was a big hit with those who enjoy exercising outside and rentals looking to offer guests a unique experience. The new iEclipse, our inflatable version, offers remarkable rigidity and the same performance as the Eclipse in an ultra-lightweight and portable package that can fit in the trunk of a small car. Of course, the new hardboard version weighs only 20 kg (44 lb) and is also easy to transport.

**PGM: How do you manage copycat products coming from Asian manufacturers? Is there anything to be done besides innovating anew**

**GP:** Innovation will keep us ahead of the copycats. We are aware of their existence, but fortunately, things are not to the point where we view them as competition in Europe. I have never talked to a customer who said they bought a copy and were happy with it. It is always, "I wish I bought the real deal." This customer may still purchase a Hobie and experience a pedal system as it should be. I am concerned about those who have negative experiences with a non-performing pedal system and decided against kayaking as a result. We have to meet with dealers, talk to po-

**"THE BOOMING PADDLE SPORTS SECTOR AND THE FAST GROWING MARKET FOR LIGHT, CAR TOP-ABLE BOATS IS CLEARLY THE MAJOR PLAYERS FOR HOBIE'S STRATEGY MOVING FORWARD."**

tential new customers and get them into our boats, or at least give them the option to try. E-Commerce only does not help here. Only a brick-and-mortar retail store can convince customers to make a better choice. .

**PGM: Kayak fishing is gaining popularity in Europe, and Hobie has played a big part in this. What significant differences do you see between the US and the European markets?**

**GP:** Kayak fishing models and trends in Europe are the same as those in the US but run a few years behind. Where there was a higher interest in smaller kayaks a few years ago in Europe, we are now seeing a growing demand for bigger kayaks, such as our flagship, the Hobie Mirage Pro Angler 14 – 360. I am positive that we will reach a similar level here in Europe sometime in the future.

**PGM: You have taken a very active role in the development of Kayak Fishing in Europe through the sponsorship of events and the creation of a global tournament series.**

**GP:** Tournament fishing has become a very serious part of the sport and is absolutely helping to grow the business. Over the years, we have established a highly reputed tournament system spanning the globe that became the blueprint for events

in Europe and other parts of the world. Most rounds end up in the Hobie Fishing Worlds, held first in Australia in 2011, with nine two-man teams representing the US, Singapore, Thailand, South Korea, and Australia. In 2012, the Worlds moved to Texas, and twice as many contenders took part, including a European team (which included me). In 2022, the Hobie Fishing Worlds 9 returned to Amal, Sweden, with 42 anglers representing 18 countries. All the anglers qualified via local events across

the globe. One of the biggest qualifying rounds in Europe is our company-sponsored (along with our partners in fishing) Hobie Fishing European Championships. Since 2014, we have hosted events in different European countries: France, the Netherlands, Italy, Sweden, and even Serbia.

**PWM: How does the tournament work? Is it entirely run by Hobie?**

**GP:** Kayak anglers from all over Europe compete in the European Kayak Fishing Tournament, a Catch-Photograph-Release format, to be crowned European Champion. The angler with the largest total length wins. Scoring has become easy over the years. Instead of digital cameras and paper, anglers now use a tournament scoring app that provides a live leaderboard, letting anyone interested follow the event and tournament scoring live. It takes a lot of effort, passion, and a well-connected global team to organize events of this magnitude. Our dealers and local partners put a lot of hard work and effort into events during the season to help put kayak tournament fishing on the map.

**PGM: What strategy can we expect Hobie to take in 2023/24? Will you continue to lead the charge, bringing new products and ensuring you are ready when demand increases?**

**GP:** We need to promote our sport to a wider public as a sustainable way of spending time outdoors and living a healthy lifestyle. It's a cool sport, and we all do well to focus on the actual experience of paddling, fishing, pedaling, and kayaking. Getting more people to have a great time in on and around the water with Hobie. That's the main goal for 2023/24!

# WHAT'S AROUND THE CORNER?

## *A LOOK AT WHAT FULLY STOCKED SHELVES AND RISING PRODUCTION COSTS MIGHT MEAN FOR PADDLESPORTS.*

**Despite the turbulence of the past two years, paddlesports is poised to continue a positive trajectory. For the savvy shopper, there might be deals on the horizon.**

The past three years have seen continued growth in paddlesports and solidified our position as an industry capable of overcoming challenge after challenge. The uncertainties of Covid were met with ongoing global turbulence. Zero Covid regulations continued in China even as the rest of the world returned to pre-pandemic norms. Russia invaded Ukraine, contributing to rising prices and energy and labor shortages, driving production costs up and straining finances. The United Kingdom cycled through prime ministers and left the European Union while American politics became increasingly divisive. When the industry saw its biggest increase in popularity in nearly two decades, retailers around the globe faced the surge in demand with empty shelves. We enter 2023 with fully stocked shelves, yet demand for paddlesport products is decreasing from pandemic highs, and production costs and inflation remain high. Nevertheless, a hesitant optimism for the future continues to buoy the industry.

Notably, for the paddlesport industry, constraints on supply appear to be easing, even if they are not yet back to the pre-pandemic normal, writes JP Morgan. "For example, Shanghai-to-Los Angeles ocean freight rates are down 80% from the beginning of the year and 83% from the peak in the second quarter of 2021, but still 25% above the 2010-19 average." Shipping rates are predicted to normalize by 2024 and will continue to drop throughout the next decade. (<https://www.port-technology.org/>)

Inflation skyrocketed in 2022, reaching its highest rate in decades and raising the cost of living essentials, alongside luxury and leisure items, in nearly every country worldwide. As the year came to a close, inflation rates began to stabilize. Predictions call for inflation rates to continue declining globally throughout 2023 but remain painfully high overall. Consumers feel the pressure as they face rising rent, food, and energy costs. With many rethinking their spending habits, where does this leave paddlesports?

In the short term, do not be surprised to see sales in the paddlesport industry that, while not record highs, will not be record lows, either. "Covid boomers," newcomers who discovered paddlesports during lockdowns, have increased user numbers, and many are about ready for an equipment upgrade. Borders are open, but travel remains costly, and low-cost activities close to home maintain appeal.

Though energy and raw materials will remain expensive for some time, keeping production costs high, brands have used the last two years to revamp and regroup, working towards products that are more sustainable and more efficient and environmentally-friendly production practices. Many have hinted at projects in the works, and we can expect to see industry-wide releases of new or updated products in the next few years.

**"IN THE SHORT TERM, DO NOT BE SURPRISED TO SEE SALES IN THE PADDLESPORT INDUSTRY THAT, WHILE NOT RECORD HIGHS, WILL NOT BE RECORD LOWS, EITHER."**

China lifting Zero Covid restrictions may bring the biggest significant changes for 2023, alleviating the strains and pressures on the supply chains and labor forces. As conditions in China normalize, it may re-open the market to brands reliant on out-of-house production and open new markets altogether in the long run.

In China, the middle class is on the rise, with 163 million currently representing nearly 14% of the country's population. Stringent lockdowns have left people frustrated and seeking relief from rules, testing, and the city. With a public sector already pledging to increase the infrastructure and resources needed for outdoor activities and a growing youth and social media culture, we can anticipate a boom of interest in outdoor sports as Covid normalizes.

While the market won't maintain its pandemic growth rate in Europe and North America, predictions call for it to remain above pre-pandemic norms. It might not be on the forefront of consumer minds, but the next year or two will continue to be an excellent time to be involved in paddlesports. With dropping demand, overstocked shelves, and more new products on the way, don't be surprised to see a sale or two in the near future—and if we're lucky, prices that will, at the very least, hold steady.

While we remain optimistic, if the past three years have taught us anything, it's that nothing is guaranteed. The best way to support our industry remains what it has always been. For consumers, it is buying smart, but buying, nonetheless. For manufacturers, it means producing smart, bringing products to market that people need that show genuine improvements from year to year. There are still difficult times ahead, and people likely won't buy what they don't need. It is up to us to keep paddlesports appealing and feeling essential to people's lives, to remind and sell not just products but the escape getting out on the water offers and the version of ourselves paddlesports allows us to be.

**RTMKAYAKS.com**

ROTOMOD SAS - Zi. Jean Malèze - 47240 Bon Encontre - France

## CLOSING THE DIVERSITY GAP

**For years now, it has been widely agreed that prices need to increase for the industry (and our dealers!) to survive. Those prices are now up, but are they the answer to the initial problem?**

The past decade has seen a growing desire to make paddlesports more inclusive and accessible to different communities, especially minority populations. Concentrated efforts have seen increased diversity in the imagery used to portray paddlesports. Bringing that diversity to the water requires actions that support our changing perceptions of what the “typical” paddler looks like and what qualifies as the outdoors. We must all continually ask, “why isn’t my paddling community as diverse as it could be?”

The belief that those interested in the outdoors, and by extension, recreational paddlesports, are largely middle-class and white is a self-fulfilling prophecy. By changing the imagery used to portray paddlesports, the industry is working to normalize Black, Indigenous, and People of Color (BIPOC) participants and combat existing stereotypes. Even as the desire to welcome BIPOC communities to the water change, significant hurdles to participation and a sense of feeling welcome remain, including prohibitive financial costs, fear for personal safety, or a lack of access to gear or paddlesport education.

Helping minority populations feel more welcome in paddlesports requires ongoing dialogue, as no two communities are the same. Partnerships with existing organizations, foundations, and businesses working to close the diversity gap can amplify their efforts and impact. NRS has seen success with this strategy through its LEAD program, started in 2021, which supports existing initiatives with resources from gear to financial grants and education while helping increase their reach and platform on a global scale. The creation of internships and jobs for minorities in retail, education, or design can also help diversify paddlesports from the inside out.

In Europe and the US, facilitating programs that bring paddlesports to underrepresented communities, rather than waiting for them to discover us, remains vital if we genuinely want paddlesports to become more representative of society. The International Canoe Federation already runs paddlesport education and talent identification programs, specifically in Olympic disciplines, to countries and regions where infrastructure does not exist in efforts to drive this change.

It is a widespread belief that creating a connection with nature contributes to efforts to protect and preserve our wild places. Still, not all have easy access to alpine lakes, the open ocean, or remote river canyons. Embracing initiatives and products that get people on the water in highly populated areas, celebrating urban waterways, and supporting businesses and facilities that rent gear all help make paddlesports more approachable for a wider range of users and incomes. This helps open new markets and welcomes previously excluded populations by sharing the cost burden and the need to travel.

If we expand our definition of paddlesport participation, we might be surprised to discover who we already find on the water. “Across the board, a lot of BIPOC folks paddle, just not in the paddle sports/recreation community,” reminds Paul Robert Wolf Wilson, Klamath Tribal Member and Chief Storyteller for the non-profit Rios to Rivers, which works to inspire river protection worldwide through work with indigenous youth. “My people, we paddle canoes.”

**“WE MUST ALL CONTINUALLY  
ASK, “WHY ISN’T MY PADDLING  
COMMUNITY AS DIVERSE AS IT  
COULD BE?”**

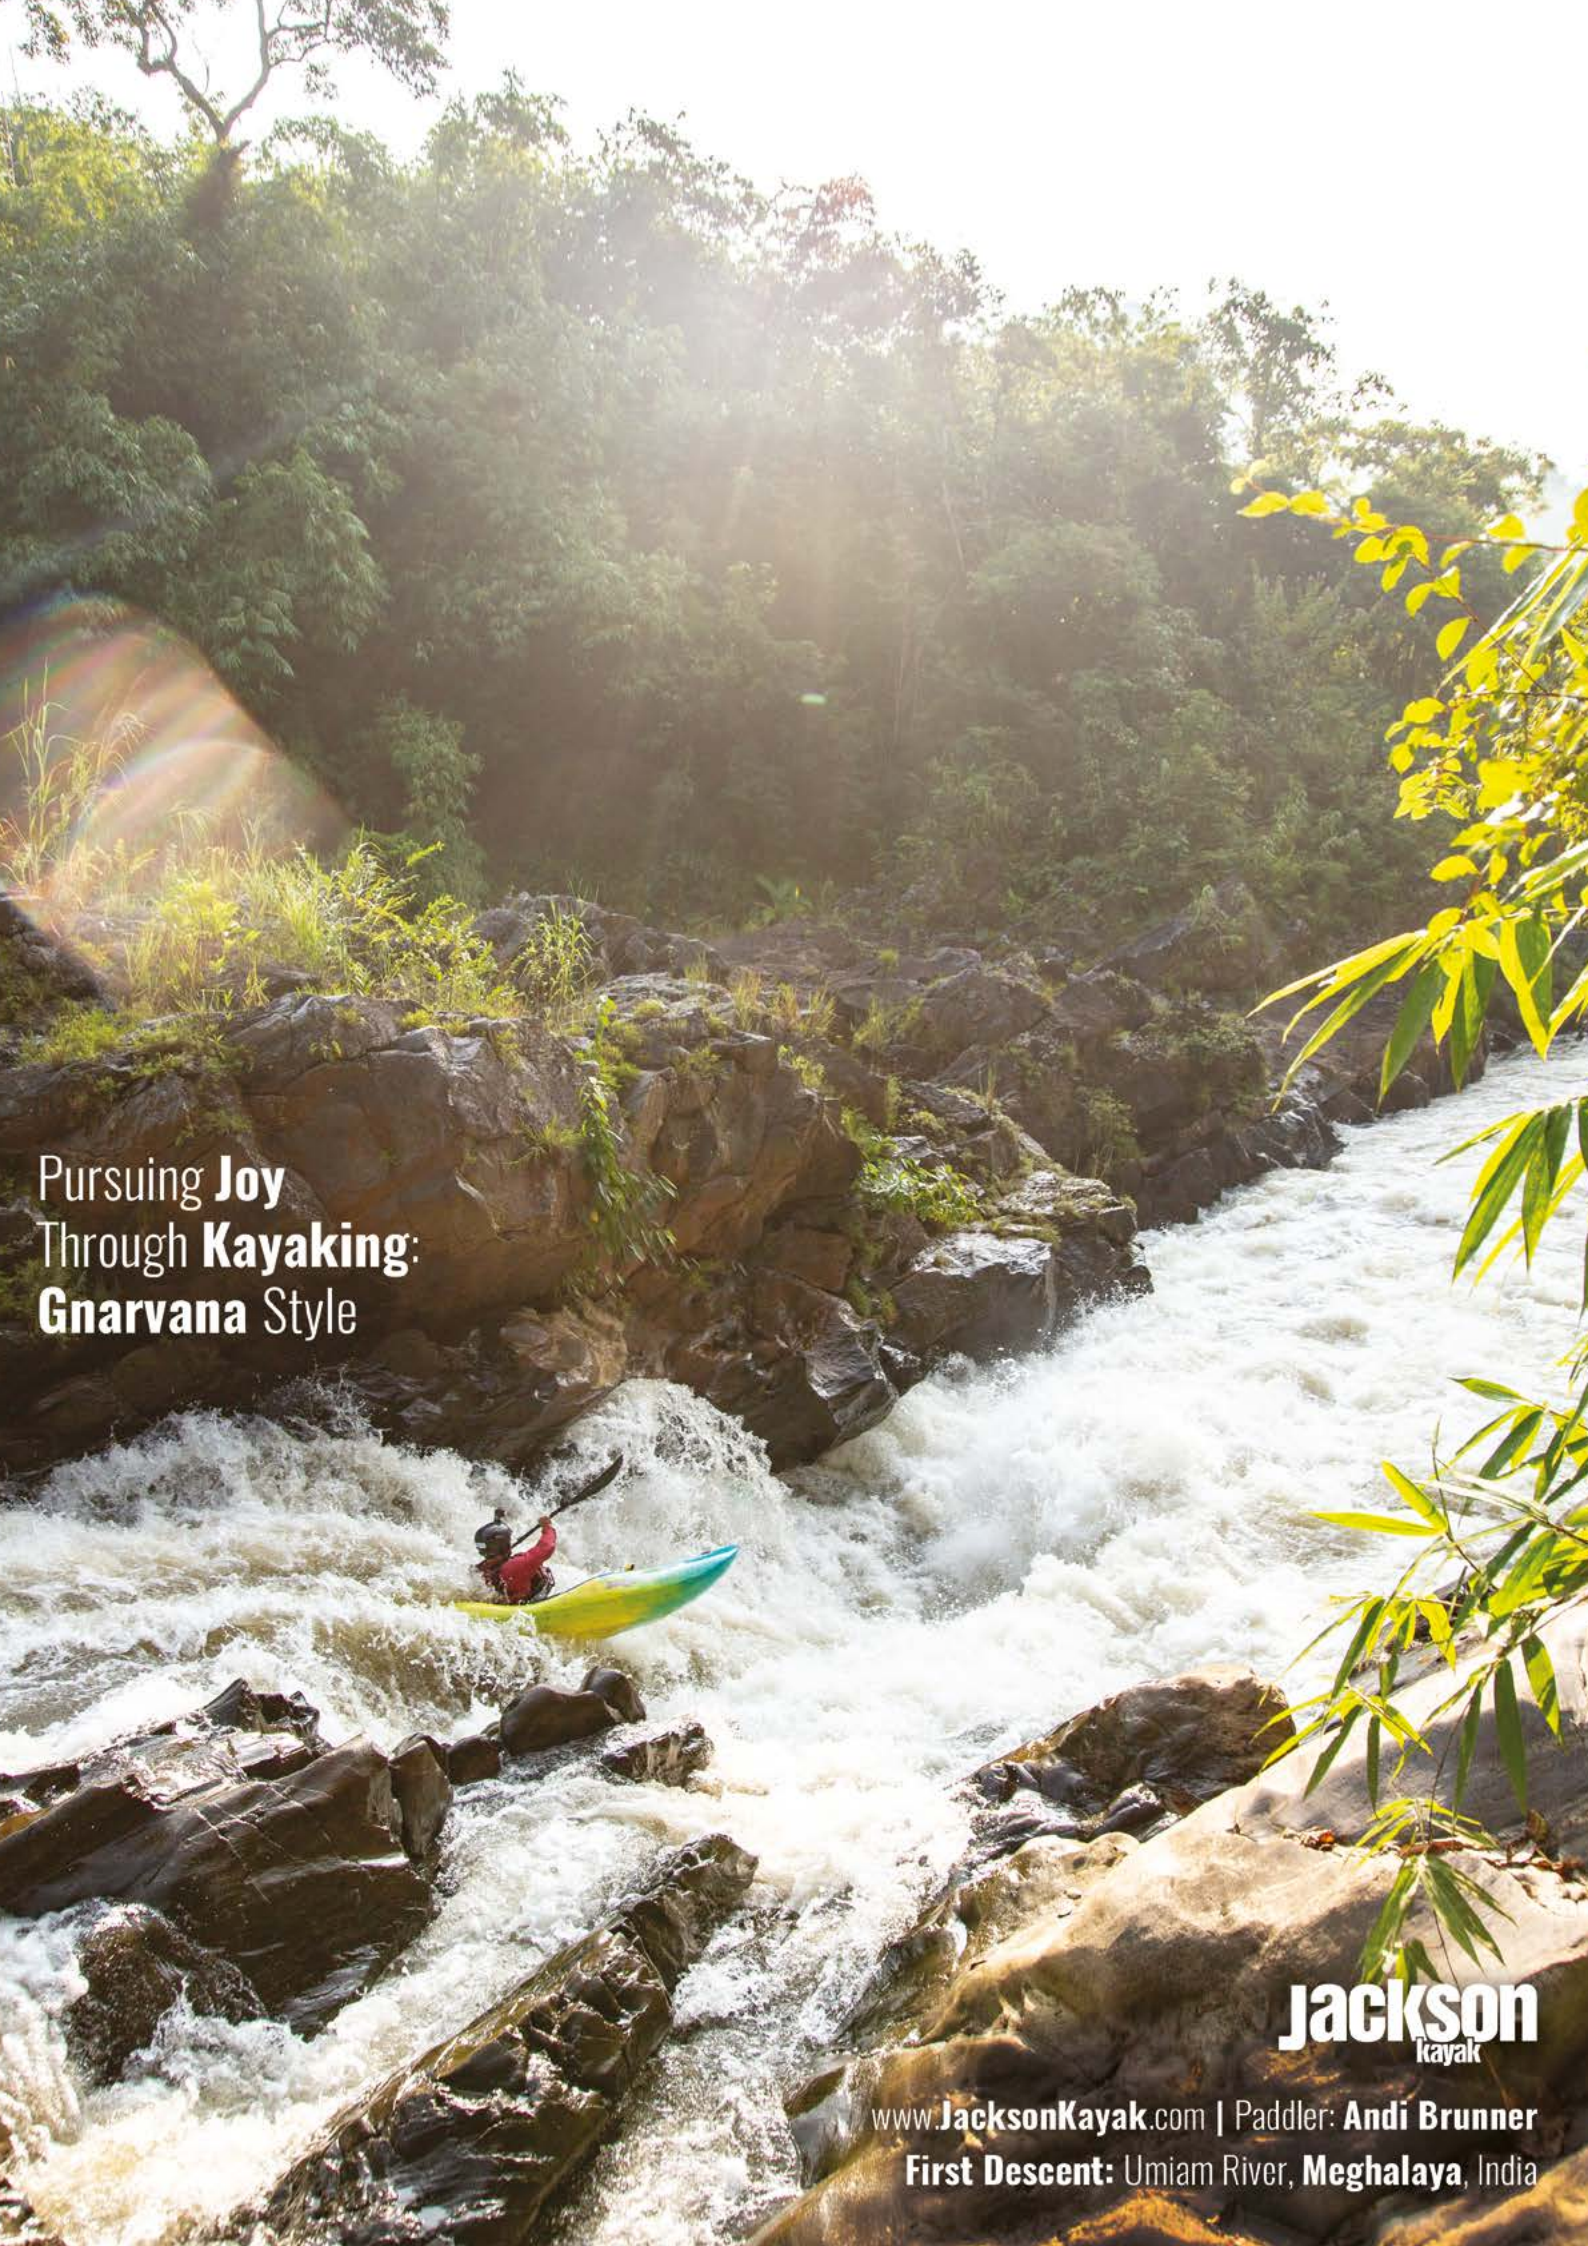

Indigenous populations worldwide have deep roots in paddlesports and ties to the world’s waterways. However, they and their legacy have been largely overlooked or dismissed even as their designs are appropriated for recreation and sport. This omission has undoubtedly been to our detriment. In countries such as Ecuador, efforts to preserve free-flowing rivers and prevent environmental degradation have found indigenous peoples to be powerful allies.

Says Rios to Rivers curriculum director Ashia Wolf-Wilson, “Tribal persons are linked to the lands they come from. When we talk about going out on our waters, it’s personal, and it’s an intimate relationship. In my eyes, I don’t think of kayaking just as a sport, it’s revitalizing connection and people.”

It is well-proven that spending time in nature has physical and emotional benefits, including decreasing blood pressure and stress hormones and helping with cognitive function and overall well-being. A commonly cited virtue of paddlesports is the sense of community and identity they bring. In New Zealand, a traditional Māori style of outrigger canoeing known as Waka Ama is gaining popularity amongst younger populations. “The sport’s strengths and attraction for many of its participants seem to lie in its inclusiveness, accessibility, a firm grounding in Māori and Pacific culture and its focus on hauora (well-being),” writes Sport New Zealand.

Making paddlesports more accessible to indigenous and ethnic minority populations is crucial for the health and growth of our industry and our environment. It is also vital for our health, well-being, and sense of self. By creating space for other voices and experiences, especially those of color, we help our industry and environment have a future. We also might directly contribute to a better, healthier global society.

# TOO CLOSE FOR COMFORT

## *DRAWING THE LINE BETWEEN INSPIRATION AND IMITATION*

**This fall, brands came under fire for designs that felt a little too familiar. While far from the first (or last) time a “copy cat” call sounded, it raises the question, where do we draw the line between inspiration and imitation? How can we, as an industry, support innovation and unique design?**

Innovation for new products comes from many places, with inspiration found through desire or need, a problem we attempt to solve, or pre-existing concepts. Imitation, by contrast, occurs when you directly copy an existing solution to a problem rather than develop a unique idea. Drawing the line between inspiration and imitation can be surprisingly difficult. For Matyas Hilgert of Hiko Sport, the designer's intention is critical. If the goal or essential question driving product development is, “Can we improve what is already out there?” and the answer is yes,” he argues, “then by doing so, you are inherently unique.”

Hilgert reminds us that appearance is only one way to differentiate products. Product performance, functionality, affordability, or sustainability can differ greatly from designer decisions, even if the base aesthetic is similar. In the apparel sector, many brands purchase raw materials from the same sources, placing additional emphasis on product design and quality. Two garments might look similar, but do they perform the same? Do they achieve the same goals in the same way? Frequently, the more advanced or technical a product, the more opportunity for differentiation. Simple splash tops can be more similar than different than, say, dry tops or shorts.

Stand-up paddleboards are another area where similarities can appear to outweigh unique designs, especially inflatables. Scroll through any Paddler's Guide: Most cruiser boards are 10'6"-10'8" long, 29"-32" wide, and 6" tall, with subtle nuances from rail placement and rocker profile to fin boxes, top sheet, and the materials and constructions used.

Materials are frequently a driving factor in innovation and product differentiation, but it is a never-ending game of catch-up as what was groundbreaking becomes standard. Take, for example, drop stitch. In barely a decade, drop stitch transitioned from rarity to the norm for quality inflatables. In 2020, Starboard SUP, among others, debuted inflatables with a woven, not knitted, drop stitch core for lighter, stiffer, stronger, and more responsive boards. More companies are quickly following suit. Soon, a woven drop stitch will become the industry standard until the next innovation in materials or construction is found.

Not all brands have the resources to lead innovation, and no single brand will ever be the sole innovator in their field. “Everyone takes some influence from other sources; it's natural to do so in design. The difference is how close your ideas are to your peers versus sources that are a few steps removed,” argues Palm Equipment's Paul Robertson. Robertson, like many, frequently looks to other industries for ad-

vances and ideas to adapt to paddlesports. “Looking sideways” is a critical source of inspiration. But adapting influences differs from copying a product, especially one within the industry.

The paddlesport industry is small. Most major players in individual sectors are friends who have been in the game for many years. Rather than relying on patents or trademarks, many believe in developing products that are substantially different rather than substantially similar as a matter of respect. Yet, as Hilgert points out, “I can respect someone by staying far away from their design. Or I show someone respect by building upon their idea—basically gratifying that the idea is a good one.”

To quote Oscar Wilde, “Imitation is the sincerest form of flattery.” However, the second half of his statement is often left unsaid: “that mediocrity can pay to greatness.” A lack of originality suggests not understanding the problem you are working to solve.

Take knock-off products, which bring the potential for poorly-made items to fail, endangering users. Gero Priebe of Hobie Kayak Europe points out that even when not life-threatening, a negative experience with a knock-off can turn potential enthusiasts away from the sport. Priebe views supporting brick-and-mortar stores with knowledgeable sales teams as a key way to educate consumers on choosing quality products and the right products for them.

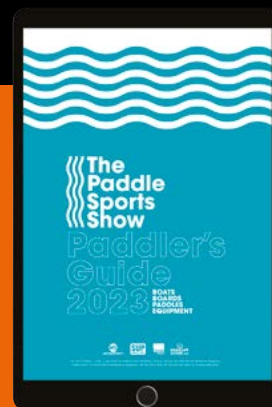

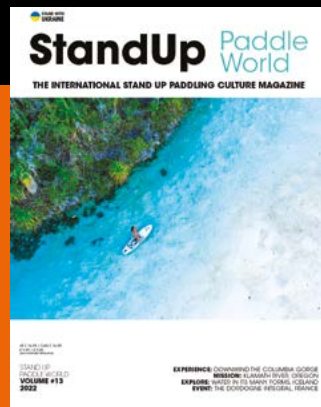

Ultimately, we need new materials, ideas, and vision to grow as an industry. “[Borrowing] heavily from others stifles innovation and ultimately reduces consumer choice, which is not good for anyone in the long run,” reminds Robertson. Rather than investing time and resources into substantially similar products, we are better served by ideas inspired by our needs and experiences. While imitations can drive innovation, we must reward those taking on the risk and expense of R&D to set the bar. We reward them through industry awards, such as the Paddle Sport's Show Product of the Year Awards, which annually showcases new innovations across market sectors. We reward them by being knowledgeable about our history and using that knowledge to educate consumers, encouraging them to support the brands putting in the work.

It's up to all of us to find the line and keep moving the standard forward. As we draw inspiration from each other, the goal should always be to do something better than it's been done before.

**“ULTIMATELY, WE NEED NEW  
MATERIALS, IDEAS, AND  
VISION TO GROW AS AN  
INDUSTRY.”**

# **RISING ABOVE THE REST**

## ***MOVE OVER SUP. THERE'S A NEW BOARD IN TOWN.***

**Since the beginning of the SUP industry, market participants have wondered how long the popularity of stand-up paddling will last. Are we nearing the end, or will foiling's rise renew enthusiasm for the stand-up market?**

From June 2020 to March 2022, paddleboard sales surged as COVID lockdown measures and travel restrictions affected lives on a global scale. Stand-up paddling, with its accessibility, versatility, and gentle learning curve, became a go-to for fitness and leisure while maintaining social distance.

By the end of 2022, the market had become flooded with paddleboards, now found in specialty shops, big box retailers, and even supermarkets. Yet, with travel possible again and the pressures of normal life returning, the influx of participants and the purchase of new boards soon waned. The future of SUP seemed to lose its luster until it seemed that suddenly, foils were everywhere.

Foils have earned accolades for their ability to unlock potential in a wide range of conditions, from flat waters to chop, and for their unparalleled glide. While foiling uses a similar platform to paddleboards, the sensation they generate is something else entirely.

"You get the serenity and the stability of stand-up paddling with the speed and extended glide time of foiling. Though it sounds relatively simple, the upgrade of the feeling is so intense that we don't really have words to describe it," writes LiftFoils on their website.

Like stand-up paddling, part of foiling's growing popularity comes from its versatility. "I love the versatility of the sport," says Indiana Paddle & Surf Co. board developer Gunnar Biniasch in an interview with North Kiteboarding. "You can do so much with a foil: wing, windsurf, prone, paddle, dockstart pumping, and kite." A benefit of the increasing cross-over with wind-based sports is getting foil devotees to pick up a paddle on the water on calmer days, especially with boards like the Fanatic Bee or Starboard Hyper Nut, which make multiple sports accessible in one board.

Where foiling differs greatly from paddleboarding are accessibility and ease of use. A large part of paddleboarding's popularity came from its intuitiveness. Users didn't need to be experienced or paddle-fit to enjoy the day out. Foiling, which generates momentum through "pumping," has earned a reputation as a more technical sport than stand-up paddling, or at least one that requires more buy-in before becoming proficient. For Aztron Founder Tony Yeung, this doesn't disclude foiling as a point of entry into the SUP market. Rather, it speaks to the need to develop and market beginner-friendly foil setups that are affordable and easy to use, of which brands are beginning to take note.

"Easier to use is definitely the main driving force for innovation on foil. On one side, more and more experienced SUP paddlers are wanting more excitement, so there is a need for beginner's foil."

**"WHERE PADDLEBOARDING  
IS ACCESSIBLE, FOILING IS  
ASPIRATIONAL."**

Foiling's technicality benefits the paddleboarding industry by creating a market for a high-end, added-value product that will help keep sales within the industry and generate demand for quality products that maintain higher margins. Where paddleboarding is accessible, foiling is aspirational. As such, it opens the doors to a market driven by different interests than the original paddleboard user, which isn't necessarily negative. Though people of all ages, backgrounds, and interests can find a reason to foil, the market will likely remain niche enough that it is difficult to imagine non-specialty retailers carrying or selling foils en masse.

Alongside new users and retail opportunities, foil's rising popularity allows brands to differentiate themselves in a market saturated with similar products. SUP foils are gaining traction in the surf, flatwater, and racing scenes, driving the innovation of foil-specific boards that feature advances in construction and design. Innovations will continue as brands work to make foiling more accessible and affordable. The push for higher levels of performance, from the ability to generate higher speeds to lighter-weight foils that offer better maneuverability, will also drive innovation and demand for the high-end models.

As foils improve, the more users they will attract. Regardless of how people learn to foil, a paddle is often a preferred method to generate the speed and stability needed to begin pumping or catch a wave. "SUP foiling is still ALL about your paddle. It's your friend, if you let it be, as well as your main source of propulsion. Choose a good one and learn how to use it well," advises Foilshop.co.uk.

Foiling may never match paddleboarding in popularity or growth rate, but it doesn't have to. As the sport grows, it will continue to generate excitement and interest, forcing consumers to look at paddleboarding anew. Ultimately, the foil bubble, too, will burst. Everything does. For the time being, the momentum is set to continue, generating new SUP users, sparking innovation and creating new revenue streams. We might as well enjoy the ride.

## WHY IT'S TIME FOR THE INDUSTRY TO EMBRACE ADAPTIVE PADDLING

**Rather than focusing on the limitations of those with disabilities, it's time for the industry to take note of their ability to participate in paddlesports.**

In 2016, paracanoeing debuted at the Paralympic Game in Rio de Janeiro, Brazil, putting an international spotlight on the benefits of getting people with disabilities out on the water. Including a Va'a class, a Polynesian-style outrigger canoe, in the 2021 Tokyo Paralympic Games signifies a broader trend: the paddlesport industry is on board to promote and grow adaptive paddlesports. It's about time.

Though the physical and mental benefits of spending time on the water are well documented, disabled paddlers have been largely neglected by the paddlesport community. These are not small numbers. According to the UN, at least one billion people worldwide have a disability, with control of \$1 trillion in annual income. Even a portion of those resources could have long-lasting benefits for our community and environment. If we want to continue growing adaptive paddlesports—and we do—we need to focus on developing gear, public perception, and access to the outdoors.

### Adaptive Gear

26% of people will be affected by disability at some point. Many suffer from arthritis, joint injuries, and other health problems. Adaptive equipment helps them enjoy getting out on the water, too, reminds Bending Branches in a blog post titled "Adaptive Kayaking and Canoeing Get More People on the Water."

"For me paddling is freedom. Freedom to exercise or explore in the same way an able-bodied person would," says adaptive athlete and ICF athlete representative Patrick O'Leary. "I can paddle in a group trading washes and unless people know me they have no idea what's different."

The natural stability of paddle craft has largely left adapting gear up to individuals. However, as more disabled paddlers join the ranks, products designed to take the needs of disabled users into account from the start are increasing, such as the Do Sport Trident Ability Board, seen at the 2022 Paddle Sports Show. The Trident Ability Board combines the stability of catamarans and outriggers with the accessibility of paddleboards in a wheelchair-friendly design that accommodates two people, one seated and one standing.

The ama, or float, used to stabilize outrigger canoes is a highly adaptable and cost-effective way to make paddlesports safer for people with paralysis, spinal cord injuries, or limited coordination. Smaller-scale adaptation can be equally impactful: High-visibility tape or paint on paddles benefits the visually impaired, and mount-supported paddles or grip aids can make paddling more accessible and enjoyable.

### Perception & Education

While adaptive equipment helps facilitate an entry point into paddlesports, public perception of disabilities is an ongoing challenge. "Perception is always an issue. People with mobility issues can be perceived as at risk around water," explains

O'Leary, who is an amputee of the leg. "Careful thought is always needed but in most cases a safe method of paddling is available."

ICF Vice President Lluís Rabaneda views perception as a key area where organizations and federations can make a difference. "Awareness is the key hurdle to overcome. We need to continue educating every level of the paddling communities and give the tools to have an easy inclusion of the adaptive paddlers."

Numerous educational resources on adaptive paddling exist, shared through private organizations and national and international federations. British Canoeing, which uses the term Paddle-Ability to refer to all paddlesport activities for disabled people, lists information on "Paddle-Ability" approved programs training, access, and clubs on their website. They remind us that while working with those with knowledge and experience in adaptive-specific paddling strategies is hugely helpful, much can be gained by including adaptive paddling activities in the primary sector rather than separating them.

"Society is moving toward a more inclusive view of itself, where all persons of varying abilities can contribute," says Rabaneda. He continues, "Paddlesports and the paddlesport industry needs to see itself as an active participant in this movement. This means working to increase participation across different channels such as tourism, club, elite levels, or during rehabilitation."

### Access to water

Increasing participation across any channel relies heavily on access to water and outdoor spaces, a significant challenge many non-disabled people have never considered. We should, as accommodations that build universal outdoor access, such as boat ramps or improved signage, benefit the entire paddlesport community. Supporting existing initiatives to improve water access is maybe the best place to start concentrating efforts to make paddlesports more accessible.

"Not only are experiences in nature crucial for all human beings, it doesn't take that much to make days on the water possible, says Canadian-based organization Access Revolution Founder Jordan Kertan. Through Access Revolution, Kertan, a recreational therapist, promotes and sells products that improve experiences on and access to the water. She continues, "It takes innovative equipment, a community that supports the vision and the dream to make it happen, and participants who are keen to get outside and enjoy nature together."

## WHEN LESS IS MORE

### *HOW SIMPLIFIED PRODUCTS ARE HELPING PADDLESPORTS WORK TOWARD A CIRCULAR ECONOMY.*

**A surprising trend is on the horizon: stripped-back products focusing on versatility and durability. Is this the first step to reaching a circular economy?**

Being a leader in the paddlesport industry often comes with a dark side: The more we grow, the more waste we generate, and the bigger our environmental impact becomes. It is a reality many are working to change not as an afterthought but from the get-go. "We need to start taking ownership not only for cleaning up the mess but for reducing the mess in the first place," advocates Soul Waterman owner and designer Corran Addison.

At a conference on the Paddlesports Footprint at the Paddle Sports Show in Lyon this fall, environmental consultant Henri Bourgeois Costa spoke of an imagined future with a circular economy where brands took full responsibility for the life of their products, from the materials used in their manufacture to what their end of life looks like and how a product is disposed of. Drawing on the example of Technica, who recently started an initiative to recycle or repurpose the many (17+) materials found in most ski boots, Costa reminded us that shifting the standards of an industry can start with one push.

Durable and versatile products have long been a priority in paddlesports, from apparel and accessories to kayaks and paddleboards. As we refine and reduce our long-term environmental footprint, we expect to see more companies develop products with design innovations focused on durability, recyclability, reparability, and need. It seems simple, but thoughtful design provides a crucial foundation for avoiding products that spend more time in a landfill than on the water.

Peak Paddlesport founder and designer Pete Astles sees product design, including the materials used, as critical. While innovations in the past have focused on using and incorporating recycled materials, "The key now is to design products so that they can be deconstructed and recycled at the end of their usable life. We must all push our suppliers for... components that can be reused, repurposed, or recycled at the end of the product's life."

Unless products can be separated and compacted, the costs and impact of shipping products for recycling are prohibitive and counterproductive. As Costa's Tech-

nica example highlights, separating products into different materials and repurposing them takes thought and effort. There also needs to be a strategy to develop infrastructure and consumer buy-in.

"Ideally, some industry-wide cooperation is required on these items along with consideration of how this can be achieved more easily during the design stage of any product," points out Palm Equipment's Paul Robertson. Astles agrees, advocating for the infrastructure provided "through clubs, dealers, and our own businesses so that our products can be easily returned for recycling and repairs."

Another solution is partnering with organizations such as TerraCycle, which provides free recycling solutions for typically hard-to-recycle waste and maintains large-scale recycling programs in several countries. One program they currently offer in partnership with surf brand RipCurl collects and recycles old wetsuits, while The TerraCycle Global Foundation works to remove plastic waste from waterways.

While it would be incredible if everything could be made with renewable or recycled materials, they don't always provide the durability, longevity, or safety required by paddlesports. For Jochen Lettmann of Lettmann Kayaks, downcycling materials is important, but the best strategy is to encourage the use of products as long as it is safe. Lettmann, whose boats and paddles can last decades, promises customers, "We will do our best to repair your boat or paddle as long as it is possible."

Agrees Matyas Hilgert of Hiko Sport, "Repairability is another way of very effectively extending product life span. Yes, it is not sexy because the word "repair" signals damage, but if Patagonia made the program successful so should we." Hiko has begun small steps towards this goal, including a repair kit with their dry gear and working to educate customers on the need to repair rather than replace.

Being fully responsible for the products we create requires being honest about the need for new products and educating customers to think the same way, even if it means fewer sales in the short term. It requires choosing materials that will last as long as possible with as minimal an environmental impact as possible. It requires getting creative. There is no shortage of opportunities for continued innovation as we work towards this goal.

"Every environmental gain is also a gain for our company, especially regarding the recycling of materials," says Tahe Outdoors in a 2022 interview with Boardsport Source. "The ultimate goal would be to be able to recycle all our boards at the end of their lives, which should be at least ten or twenty years."

Whether through longer-lasting products or products designed to be repaired and recycled, the less waste we generate, the better it is for our world. And that is better for paddlesports.

# INTERVIEW: JASON YARRINGTON

## TRAILHEAD PADDLE SHACK – TRAILHEAD CANOES, OTTAWA, ONTARIO, CANADA

Trailhead Paddle Shack has been a Canadian landmark for nearly 50 years. It began in 1976 as Trailhead, merging with the Paddle Shack in 2012. We met with co-owner Jason Yarrington to hear his perspective on the past few years, what makes TPS so special, and what is expected for 2023.

**Paddlers Guide Magazine: Jason, please introduce your business to us. What does Trailhead Paddle Shack represent to the regional community in Ontario and Quebec?**

**Jason Yarrington:** Ottawa is an amazing area for paddling. We have world-class whitewater, world-class canoe tripping in nearby Algonquin Park, and great touring on our many lakes and the St Lawrence River. Trailhead Paddle Shack is the oldest outdoor store in Ottawa, Canada. Since its beginning, the store has been an institution in the world of paddle sports and outdoor gear in Eastern Canada.

**PGM: Trailhead and The Paddle Shack were originally two separate stores, correct? What is the history behind Trailhead, The Paddle Shack, and your merge?**

**JY:** Trailhead was opened in 1976, while I opened The Paddle Shack in 2000. For 12 years, we were competitors in the paddle sports business, located on the same street, before The Paddle Shack purchased Trailhead in 2012.

Trailhead Canoes began in 1976 when the original Trailhead owners began a still-successful guiding business called Black Feather on the Nahanni River in the Northwest Territories. We continue to build all of our canoes in Canada with designs focused on performing on Canada's many rivers and lakes.

**PGM: TPS is a larger shop when it comes down to pure paddle sports retail players. What is your take on the fact that retailer numbers seem to reduce yearly?**

**JY:** I am seeing fewer and fewer pure paddle sports stores remaining across Canada. While paddling is our heritage and the main focus for us, from whitewater to sea kayaks, stand-up paddleboards, and canoes, we have diversified to include nordic and alpine touring skis, outdoor clothing, and camping equipment. In Canada, our lakes and rivers are frozen for half the year, so the ability to diversify is essential. Our relatively large size and diversity have helped us in this regard.

**PGM: Can you distill what makes Trailhead Paddle Shack what it is and why it works so well into a single sentence?**

**JY:** We hire paddlers in all facets of the sport to provide the best customer service and maintain a large selection of inventory year-round.

**PGM: In the two decades since you first founded the Paddle Shack, what main changes have you witnessed in paddle sports?**

**JY:** Since taking over Trailhead in 2012, a few main things I've seen, at least for the North American market, is the change in ownership of many prominent paddling brands from private to corporately owned. From a sales standpoint, the largest changes have been the decrease in whitewater kayak sales, which were highest between 2004-2014, and the rise of stand-up paddleboards.

**PGM: We saw you walking around at the Paddle Sports Show in France this past September. What were your biggest motivations for making the trip?**

**JY:** The biggest reason for me to go to the Paddle Sports Show is to meet and talk with the owners and CEOs of the brands, as well as discuss business with industry members outside of North America. I've found that this show has been great for finding unique brands that aren't as prominent in North America, which we can then bring to our customer base in Canada. For example, since first attending the show a couple of years ago, we have been warehousing and distributing Norse Kayaks and partnered with Wave Sport, bringing it back to Canada.

**PGM: When coming to the Paddle Sports Show, you also come as a manufacturer of Trailhead Canoes. Do you have distributors in Europe? What are you looking for at a show as a manufacturer?**

**JY:** No, I don't currently have distribution set up in Europe, but I do sell Trailhead Canoe products to several accounts across Europe and the UK. Maybe one day, we'll have Trailhead Canoes across Europe!

**PGM: How have the past three years been for your shop? Have there been challenges as a retailer?**

**JY:** The last three years have been amazing for us. We worked really hard to find and buy inventory to meet the demands for boats and paddling gear, and it paid off.

**PGM: How would you describe 2022 as a retailer?**

**JY:** 2022 was a whirlwind year. In terms of not knowing how long the increase in demand would last. By July, the bubble had burst, and we've since seen a return to pre-pandemic sales in many areas.

**PGM: How do you forecast 2023? What is your strategy for 2023?**

**JY:** I think 2023 will see sales slightly higher than in pre-pandemic years. I believe the largest decreases will be in inflatable paddle boards and small rec kayaks. High-end canoes and sea kayaks continue to be an area where we expect growth. Coming out of the pandemic, hopefully, we'll see a large portion of customers who purchased their first SUP, kayak, or canoe become lifetime paddlers.

# BOATS

Whether exploring inland waterways such as lakes and rivers, quiet ponds or raging torrents, or navigating the open sea, there is a boat for every adventure. The original paddlesport vessel, each watercraft features shapes and styles designed for a different function but the same purpose: traveling on water. For as Kenneth Grahame's Water Rat said to the Mole: "Believe me, my young friend, there is nothing—absolutely nothing—half so much worth doing as simply messing about in boats."

## SIT ON TOP 1

DESIGNED FOR FUN WITH FAMILY AND FRIENDS ON RIVERS, LAKES, AND OCEANS.

### RPI KAYAK - BICHI

An easy to paddle, stable, and comfortable kayak with a gull-wing hull that makes it fast and even surfable! Features a reinforced keel; this kayak is very versatile for sea, lake, and river trips.

**Length: 297 cm/9'8" | Width: 79 cm/31" | Weight: 26 kg/57.3 lb**

[POLYROTOGROUP.COM](https://polyrotogroup.com)

### ISLANDER KAYAKS - KOA SPORT

A playful kayak for a day at the beach or an easy paddle discovering a local waterway. The Koa sit-on-top is lightweight and compact; it's so easy to handle on or off the water, with space and comfort for all the family. But don't be fooled, the Koa cuts smoothly through the water and jumps easily over the surf – you'll feel the performance of a much bigger boat.

**Length: 258 cm/8'6" | Width: 74 cm/29" | Weight: TBC | Max. Cap.: 115 kg/253 lb | Material: High-Density Polyethylene | Colors: Coral . Attol . Reef**

[ISLANDERKAYAKS.COM](https://islanderkayaks.com)

### RTM - TAIKI EVO COMFORT

The TAIKI is the most popular single-seater kayak for professionals because of its strength, rigidity and ability to paddle even being loaded. Available in a Comfort version with folding PE backrest (registered model ....)

**Length: 273 cm/8'9" | Width: 79 cm/31" | Depth: 33 cm/14" | Weight: 22 kg/48 lb | Max. Cap.: 130 kg/287 lb | Material: HDPE**

[RTMKAYAKS.COM](https://rtmkayaks.com)

### DAG - SX 285

The SX 285 is a SIT-ON-TOP kayak for teenagers and adults designed to get started and progress in whitewater.

**Length: 285 cm/9'35" | Width: 71 cm/27.9" | Depth: 30 cm/11.8" | Weight: 22 kg/48 lb | Max. Cap.: 130 kg/286 lb | Material: HDPE**

[DAG-KAYAK.COM](https://dag-kayak.com)

## RPI KAYAK - SHELBA

The Shelba is a kayak that provides unequalled speed and glide. Stable and comfortable, ideal for lake and river trips, and also for fitness..

**Length: 246 cm/8'0" | Width: 74 cm/29" | Weight: 20 kg/44 lb**

[POLYROTGROUP.COM](http://POLYROTGROUP.COM)

## TAHE - OUASSOU

The ultimate sit-on-top kayak for family & fun at the beach.

**Length: 260 cm/8'6" | Width: 78 cm/31" | Weight: 18 kg/39 lb | Max. Cap.: 110 kg/242 lb | Material: TST**

[TAHESPORT.COM](http://TAHESPORT.COM)

## RTM - MAKAO

The MAKAO COMFORT is our latest single Sit on Top kayak from RTM. This new kayak is super stable, comfy, great for any kind of paddler, starting from beginners. It is equipped as standard with our tilting polyethylene backrest, offering incomparable comfort. The central hatch allows you to carry everything you need for a day trip in a waterproof bag. The Makao allows you to safely welcome small and large paddlers, beginners, and advanced paddlers on class I-II rivers, lakes, and the beaches along the coast.

**Length: 273 cm/8'9" | Width: 79 cm/31" | Depth: 33 cm/14" | Weight: 22 kg/48 lb | Max. Cap.: 130 kg/287 lb | Material: HDPE**

[RTMKAYAKS.COM](http://RTMKAYAKS.COM)

## JACKSON KAYAK - STAXX

Looking for top-end performance and design in an economical package? We've got you! Offering efficiency and comfort, the Staxx provides an incredible kayaking experience compared to others in its class. On top of that, this boat's unique 'stack-ability' makes it ideal for families or businesses that need a fleet that will store away easily. The Staxx is a versatile option for paddling rivers, ponds, or lakes. Perfect for families or liveries looking for an easy-to-store option with lots of room for fishing and day tripping. Be sure to check out our Staxx Fishing Kit to turn your kayak into a fishing machine!

**Length: 325 cm/10'8" | Width: 83.8 cm/33" | Weight: 29 kg/64 lb**

[JACKSONKAYAK.COM](http://JACKSONKAYAK.COM)

## VAGABOND KAYAKS - MARIMBA

The Marimba is not a racing kayak, but, as far as recreational sit-on-tops go, this is probably the fastest on the market. This kayak is easy to keep on track, yet it takes minimal effort to turn. Where the bow cuts through choppy water and the peaked, high-volume deck punches through waves, the sleek hull handles ocean swell, open water crossings and moving water. The Marimba is fast, stable, easy-to-paddle, great for fitness training, and capable of paddling long distances and multi-day expeditions.

**Length: 452 cm/14'9" | Width: 67 cm/26.25" | Height: 40 cm/15.75" | Weight: 30 kg/66 lb**

[VAGABONDKAYAKS.COM](http://VAGABONDKAYAKS.COM)

## RPI KAYAK - LATCHA

The LATCHA is a long-time favorite of surf kayakers. This fairly manoeuvrable and stable kayak is a real "beach toy" in calm water and is the perfect sit-on-top for family fun. When surfing, it is very fast. An affordable choice for beginner surf kayakers or recreational paddlers.

**Length: 246 cm/8'0 | Width: 74 cm/29" | Weight: 20 kg/44 lb**

[POLYROTOGROUP.COM](http://POLYROTOGROUP.COM)

## DAG - SX 230

The SX 230 is the ideal kayak for young beginners. Light, compact, easy to handle, children quickly get to grips with this safe kayak.

**Length: 230 cm/7'5 | Width: 67 cm/26" | Depth: 24 cm/9" | Weight: 12 kg/26 lb | Max. Cap.: 70 kg/154 lb | Material: HDPE**

[DAG-KAYAK.COM](http://DAG-KAYAK.COM)

## RPI KAYAK - TRILIA

The Sit-On-Top kayak is the most famous kayak shape in the world. You can navigate alone, with two or three people on the sea, lake, or river. It is very compact, light, fast, and easy to handle.

**Length: 367 cm/12'0 | Width: 87 cm/34.3" | Weight: 33 kg/73 lb**

[POLYROTOGROUP.COM](http://POLYROTOGROUP.COM)

## RPI KAYAK - KTO

Length: 420 cm/13'8 | Width: 60 cm/23.6" | Weight: 24 kg/53 lb

**Length: 273 cm/8'9 | Width: 79 cm/31" | Depth: 33 cm/14" | Weight: 22 kg/48 lb | Max. Cap.: 130 kg/287 lb | Material: HDPE**

[POLYROTOGROUP.COM](http://POLYROTOGROUP.COM)

## RPI KAYAK - ZYMBRA

The ZYMBRA is a self-bailing single-seater kayak made of high-density polyethylene for adults and larger people. The Zymbra is recommended for rental companies because it is sturdy, stackable, and comfortable.

**Length: 345 cm/11'4 | Width: 86 cm/34" | Weight: 35 kg/77 lb**

[POLYROTOGROUP.COM](http://POLYROTOGROUP.COM)

## RPI KAYAK - NEWBIZ

The NEWBIZ is the perfect beach kayak for the whole family. Light and compact, it will go everywhere with you. Stable and easy to handle, its favorite playgrounds are the waves and the sea!

**Length: 254 cm/8'4 | Width: 76 cm/30" | Weight: 23.5 kg/52 lb**

[POLYROTOGROUP.COM](http://POLYROTOGROUP.COM)

## RPI KAYAK - TIBOU

The TIBOU is a sit-on-top kayak specially designed for children or smaller paddlers. It is stable, safe, directional, and maneuverable.

**Length: 272 cm/9'0" | Width: 65 cm/25.6" | Weight: 16 kg/35.3 lb**

[POLYROTGROUP.COM](http://POLYROTGROUP.COM)

## RTM - TANGO EVO

The TANGO is available in both Standard and Comfort versions (with foldable PE backrest). The TANGO EVO features a flat-bottomed hull designed for the river, lake, and quiet seaside paddling.

**Length: 351 cm/11'5" | Width: 78 cm/31" | Depth: 34 cm/13" | Weight: 26 kg/57 lb | Max. Cap.: 140 kg/308 lb | Material: HDPE**

[RTMKAYAKS.COM](http://RTMKAYAKS.COM)

## RPI KAYAK - LIFY

The Lify is extremely stable and maneuverable. This kayak is the perfect choice for paddlers who want to go fishing or just hang out. A large boat for medium and larger paddlers, with loading facilities.

**Length: 246 cm/8'0" | Width: 74 cm/29" | Weight: 20 kg/44 lb**

[POLYROTGROUP.COM](http://POLYROTGROUP.COM)

## RPI KAYAK - SALAMBO

The Salambo is long, light, and fast. The Salambo has increased storage capacity thanks to a large storage space in the back and a large loading capacity. Bring along bags, drums, diving equipment, you name it..

**Length: 345 cm/11'4" | Width: 70 cm/27.5" | Weight: 26 kg/57.3 lb**

[POLYROTGROUP.COM](http://POLYROTGROUP.COM)

## RIBER - PHOTON

The Riber Photon has been designed to be packed with features. The ample hull width increases the stability on flat water. The integrated skeg cuts through the waves and the lightweight hull provides excellent tracking resulting in an effortless paddle for smooth sea use. Made from a durable HDPE construction with a sealed storage hatch and integrated drainage holes.

**Length: 286 cm/9'5" | Width: 76 cm/2' 6" | Height: 28 cm/11" | Weight: 18 kg | Capacity: 135 kg**

[RIBERPRODUCTS.COM](http://RIBERPRODUCTS.COM)

## RPI KAYAK - SEPTA

A very versatile and comfortable sit-on-top kayak for medium and larger paddlers. Tracks well and easy to steer; perfect for sea and lake trips. Easy to transport and store.

**Length: 410 cm/13'6" | Width: 70 cm/27.5" | Weight: 30 kg/66 lb**

[POLYROTGROUP.COM](http://POLYROTGROUP.COM)

## SIT ON TOP 2

DESIGNED FOR FUN WITH FAMILY AND FRIENDS ON RIVERS, LAKES, AND OCEANS.

### ISLANDER KAYAKS - KOA DUO SPORT

Two plus one! The Koa Duo is a tandem kayak for the whole family, with three seats it paddles great with one, two or three passengers (or three captains if you prefer). It's wide enough to be stable and easy to climb aboard, but also fast and sleek in the water to really go places on a day trip exploring the shoreline.

**Length: 375 cm/12'3" | Width: 85 cm/33.4" | Weight: 30 kg/66 lb | Max capacity: 220 kg/485 lb | Colors: Coral . Reef**

[ISLANDERKAYAKS.COM](http://ISLANDERKAYAKS.COM)

### RTM - OPTIMO EVO

The Optimo EVO STANDARD: The professional quality Sit-On-Top equipped with two PE-backrest options for greater paddler comfort. The Optimo Evo Standard does not have a front reinforcement and weighs 44 kg; the Optimo Evo Reinforced has a front reinforcement and weighs 48 kg. The new polyethylene backrests are mobile: once lowered, it is possible to stack the kayaks for easy and efficient storage. Folders are automatically lowered by sliding the kayak from the back to the front. For the family that wants to spend time on the water (two adults and one child) the Optimo is an alternative to traditional canoes.

**Length: 432 cm/14'2" | Width: 93 cm/37" | Depth: 34 cm/13" | Weight: 48 kg/ 106 lb | Max. Cap.: 300 kg/661 lb | Material: HDPE**

[RTMKAYAKS.COM](http://RTMKAYAKS.COM)

### JACKSON KAYAK - TAKE TWO

The TakeTwo is the latest in Jackson's line of tandem fishing and recreational kayaks. It is Jackson's largest capacity kayak and can be paddled either tandem or solo. Jackson has continued to innovate both in hull design and the ability to stage your kayak for every adventure. The TakeTwo takes two steps forward with the advantage of a decade of innovations and functionality including Jackson's TriTrack making rigging for any situation a dream. The Take Two also features mounting options for ease of rigging a motor or Power Pole. Iconic JK stability make it awesome for standing and fishing. The TakeTwo is a great platform for fishing, recreational paddling, or tripping in any waterway. This all-purpose kayak is where family fun, fishing and adventure unite in one great boat.

**Length: 419.1 cm/165" | Width: 93.87 cm/3.08 ft | Weight: 49.9 kg/110 lb**

[JACKSONKAYAK.COM](http://JACKSONKAYAK.COM)

### RTM - OCEAN DUO

The OCEAN DUO SIT-ON-TOP can accommodate two adults plus a child. Self-draining, robust, safe, and comfortable, the Duo allows even new paddlers to discover the sea, lake, and river. Enjoy paddling, touring, and surfing the small waves of the coast.

**Length: 370 cm/12'2" | Width: 88 cm/34.5" | Depth: 33 cm/14" | Weight: 29 kg/64 lb | Max. Cap.: 220 kg/485 lb | Material: HDPE**

[RTMKAYAKS.COM](http://RTMKAYAKS.COM)

### TAHE - BORNEO

A stable & versatile sit-on-top for one or two people with a maximum capacity of 550lbs/250kg.

**Length: 410 cm/13'5" | Width: 84 cm/33.1" | Weight: 34 kg/75 lb | Max. Cap.: 250 kg/550 lb | Material: TST**

[TAHESPORT.COM](http://TAHESPORT.COM)

## DAG - TARKA

Unsinkable two seater kayak with a self-draining system, it can navigate anywhere. Its hull is particularly designed for shallow rivers with little water, it gives the Tarka a rigidity and robustness able to withstand any challenge. Professionals will note the inclusion of the bow cap, the new anti-theft system, the double central handles and the front and rear handles. The anti-theft system is optional. This kayak is stackable by 5 pieces maximum during the season. During winter, it is strongly advised to store it by 3 in reverse.

**Length: 445 cm/14'6" | Width: 85 cm/33.5" | Depth: 43 cm/17" | Weight: 47 kg/103 lb | Max. Cap.: 270 kg /595 lb | Material: HDPE**

[DAG-KAYAK.COM](http://DAG-KAYAK.COM)

## TAHE - TOBAGO

A fast and stable family kayak for two adults plus one or two small children.

**Length: 395 cm/12'11" | Width: 84 cm/33.1" | Weight: 32 kg/70 lb | Max. Cap.: 250 kg/550 lb | Material: TST**

[TAHESPORT.COM](http://TAHESPORT.COM)

## RTM - DUETTO

Tandem kayak that can accommodate 2 adults and a child. More comfort thanks to two tilting polyethylene backrests and integrated handles. It has a reinforced hull allowing a use in calm water, sea and rivers.

**Length: 375 cm/12'3" | Width: 93 cm/36.6" | Depth: 28 cm/11" | Weight: 32 kg/71 lb | Max. Cap.: 240 kg/529 lb | Material: HDPE**

[RTMKAYAKS.COM](http://RTMKAYAKS.COM)

## SIT ON TOP 3 & 4

DESIGNED FOR FUN WITH FAMILY AND FRIENDS ON RIVERS, LAKES, AND OCEANS.

### RPI KAYAK - MOROCCO

The Morocco is a very stable beach kayak thanks to its ample shape. It allows for family outings with two adults and two children or three adults. This kayak offers a lot of space so that even larger paddlers will be comfortable.

**Length: 419 cm/13'8" | Width: 88 cm/34.6" | Weight: 40 kg/88 lb**

[POLYROTOGROUP.COM](https://polyrotogroup.com)

### RPI KAYAK - KALAMERO

The KALAMERO is a very stable and comfortable kayak with an ergonomic design. It is ideal for family outings (2 adults with 2 children or 3 adults). This kayak is designed for all types of paddlers, beginners, or experienced, it offers a lot of space for large people. Folding backrests (2 folding seats and a backrest in the middle for its standard version) provide optimal comfort. It can also be delivered with three folding seats.

**Length: 455 cm/15'0" | Width: 92 cm/36.2" | Weight: 48 kg/106 lb**

[POLYROTOGROUP.COM](https://polyrotogroup.com)

### RTM - OCEAN QUATRO

The OCEAN QUATRO carries two adults and two children or three adults. Long sea trips with family and friends are now accessible while enjoying the incomparable comfort and safety benefits of the Ocean Quatro SIT-ON-TOP.

**Length: 412 cm/13'5" | Width: 90 cm/35.5" | Depth: 35 cm/14" | Weight: 34 kg/75 lb | Max. Cap.: 260 kg/575 lb | Material: HDPE**

[RTMKAYAKS.COM](https://rtmkayaks.com)

### RPI KAYAK - OURATA

The Ourata is a sit on top kayak that can accommodate 2 adults + a child. Sturdy, stackable and comfortable, it is perfect for anyone who wants to take long excursions or simple outings with family or friends. Its particular shape offers an optimal balance that allows you to stay on course. This kayak is designed for rental companies, clubs and communities. It offers plenty of space for large riders as well as two locations for 50 L type containers.

**Length: 345 cm/11.3' | Width: 86 cm/34" | Weight: 43.5 kg/96 lb**

[POLYROTOGROUP.COM](https://polyrotogroup.com)

Keep  
**KAYAKING**  
and **ROLLING !**

## SIT INSIDE 1

STABLE AND COMFORTABLE WITH A VERY LARGE COCKPIT OPENING FOR EASY ENTRY AND EXIT.

### RIOT KAYAKS - BAYSIDE 12 LV

The Bayside 12 LV is an extremely stable kayak to go out for the day or even an overnight. The built-in skeg keeps you going straight so you can get where you're going efficiently. The Bayside series of sit-inside kayaks is the most universally fitting kayak made to accommodate anyone wishing to experience kayaking.

**Length: 366 cm/12' | Width: 73 cm/28.75" | Weight: 53.4 lb/24.2 kg | Max. Cap.: 147 kg/325 lb | Material: Thermoformed ABS | Colors: Red . Sunset (yellow/orange) . Sky (white/blue)**

[RIOTKAYAKS.COM](http://RIOTKAYAKS.COM)

NEW  
2023

### ISLANDER KAYAKS - VORO

A nimble little kayak that loves exploring any waterway. Easy to paddle from the moment you first launch thanks to a stable hull, direction assisting keel and a flared bow – the Voro slips through the water with ease. The oversized cockpit provides confident access and allows different seating positions, with Cocoon seat padding providing comfort and support. Neat details like the solid handles, paddle rest and rear storage shelf are versatile features for a great paddling experience.

**Length: 277 cm/9'1" | Width: 72 cm/28" | Weight: TBC | Max. Cap.: 115 kg/253 lb | Material: High-Density Polyethylene | Colors: Recycled Mix**

[ISLANDERKAYAKS.COM](http://ISLANDERKAYAKS.COM)

### PYRANHA - ION S/M

The Ion is, in essence, a shorter Fusion, and as well as 'Ion' being an appropriately shorter proportion of its bigger brother's name without losing the particle physics theme, the word is derived from the Greek word meaning 'to go'. A shorter boat is better suited to shorter journeys, as well as being more manoeuvrable and easier to transport and store; as the aim of the Ion is not to take on as committing adventures as its larger sibling, the outfitting has been kept functional but simple and light, to reduce not only the overall weight of the boat, but the complexity of getting it set up and ready 'to go'.

**Length: 262 cm/8.6' | Width: 63 cm/24.8" | Weight: 18 kg/39.7 lb | Sizes: S/M . M/L**

[PYRANHA.COM](http://PYRANHA.COM)

### JACKSON KAYAK - TRIPPER

Based on the stable and versatile Jackson Kilroy hull, the Tripper is designed for fun family adventure! This sit-inside recreational kayak comes with loads of storage space and an extra-large cockpit – ideal for bringing along your furry friend. This boat provides a never-ending number of configuration options, so it's ready for every adventure. Whether you are going fishing, heading out on a long trip, or simply taking it out for a leisurely paddle, get there with the Tripper!

**Length: 373.4 cm/12'3" | Width: 76.2 cm/30" | Weight: 28.6 kg/63 lb**

[JACKSONKAYAK.COM](http://JACKSONKAYAK.COM)

### JACKSON KAYAKS - JOURNEY

The Journey inspires confidence. Like all Jackson Kayak designs, this touring model is all about balance – blending stability with outstanding performance and exceptional comfort. The Journey tracks very well and offers tremendous speed for crossing open water. Whether you're a beginner learning the basics or the most seasoned paddler looking for heavy water rock garden paddling, this boat will take you further than you have ever imagined. The perfect touring option for long distance, day trips or multi-day adventures, the Journey is most at home on large lakes, rivers, and ocean paddling.

**Length: 427 cm/14' | Width: 62 cm/24.5" | Weight: 25.4 kg/56 lb**

[JACKSONKAYAK.COM](http://JACKSONKAYAK.COM)

## JACKSON KAYAK - TUPELO 12.5

Designed to offer both comfort and efficiency, the Tupelo is a premium, feature-laden recreational kayak. It's tri-chine hull provides great stability and tracking along with loads of storage. Back again for 2023, our fully-removable, framed comfort seat is ready for all-day comfort on the water. Versatility, comfort, ease-of-use...the Tupelo has it all in one lightweight package! Great for paddling small rivers or lakes, the Tupelo is the perfect kayak for any kayaker looking to take a step up in comfort or looking to do day-long, or overnight paddling trips. 2021 color depicted.

**Length: 360.7 cm/11'10" | Width: 68.6 cm/22" | Weight: 19 kg/42 lb**

[JACKSONKAYAK.COM](https://jacksonkayak.com)

## DAGGER KAYAK - KATANA 10'4

The excitement of whitewater, with the freedom to paddle further. The Katana will take on rapids and glide through calm water, with plenty of room in the stern for gear and robust outfitting for everyday use.

**Length: 315 cm/10'4" | Width: 69 cm/22" | Volume: 393 L/104 G | Max. Cap.: 136 kg/300 lb**  
**| Material: Super-Linear High-Density Polyethylene | Sizes: 9.7 . 10.4 | Colors: Red, Green, Orange, Blue**

[DAGGER.COM](https://dagger.com)

## PRIJON - TOURYAK 500

The boat for all eventualities! Whether it is a tour on a calm river, a longer round on a big lake or the paddling holidays in the Stockholm Archipelago, the TOURYAK 500 is the first choice for all of these. A true allrounder! It is large, spacious and stable. The modern lower boat with the dished lateral sides offers a high level of initial and secondary stability, whilst running easily. The spacious cockpit allows even larger paddlers to maintain a comfortable seating position over longer periods of time. Large storage compartments and ample equipment. Made of almost indestructible HTP.

**Length: 503 cm/16.5" | Width: 63 cm/24.8" | Weight: 28 kg/61.7 lb**

[PRIJON.COM](https://prijon.com)

## PRIJON - ENDURO 450

An all-round kayak, made for lakes, smaller and bigger rivers with moving and flowing waters and whitewater up to class 2. While this all-rounder mainly focuses on touring, it is however – thanks to its dimensions and the heavy rocker – very maneuverable, turns easily and reacts really fast. The ENDURO 450 isn't nervous but fast and tracks well for short to longer distance paddling on calmer waters. Therefore you're able to paddle easy torrents. The ergonomically optimized new TOUR-seat-system with a backrest and comfortable 3D-thigh-braces provides a lot of comfort and footing, for longer distances and whitewater.

**Length: 453 cm/14.8' | Width: 62 cm/24.3" | Weight: 27 kg/59.5 lb**

[PRIJON.COM](https://prijon.com)

## SIT INSIDE 2

STABLE AND COMFORTABLE WITH A VERY LARGE COCKPIT OPENING FOR EASY ENTRY AND EXIT.

## RIOT KAYAKS - BAYSIDE 15 TANDEM

The Bayside Tandem is an extremely stable kayak to go out for the day or even an overnight. The built in rudder helps you steer and get to where you want to go efficiently. The Bayside Tandem offers a roomy open feeling for beginners, and for experienced paddlers it gives you the option on what or who to carry: cooler, dog, or child.

**Length: 458.5 cm/15' | Width: 73.5 cm/28.9" | Weight: 41.6 kg/91.7 lb | Max. Cap.: 215.5/475 lb**  
**| Material: Thermoformed ABS | Colors: Red . Sunset (yellow/orange) . Sky (white/blue)**

[RIOTKAYAKS.COM](https://riotkayaks.com)

## RTM - BRIO

Lightweight, the BRIO is a very comfy touring kayak, thanks to its ergonomic seats. Folding backrests make it easy to carry. The Brio is ideal for tours with two... or three, with a child. Designed exclusively to be propelled by human power (paddle and/or impulse drive, you can also take the Brio out solo).

**Length: 395 cm/13' | Width: 83 cm/33" | Depth: 38 cm/15" | Weight: 33 kg/73 lb | Max. Cap.: 230 kg/507 lb | Material: HDPE**

[RTMKAYAKS.COM](https://rtmkayaks.com)

## INFLATABLE 1

OFFERING MORE STABILITY THAN PLASTIC KAYAKS AND MAKING RIVER RUNNING ACCESSIBLE TO A WIDE VARIETY OF PADDLERS.

### AQUAGLIDE - CIRRUS ULTRALIGHT

The Cirrus Ultralight 110 is the ultimate marriage of a high-performance inflatable touring kayak with the extreme light weight and stowability of a packraft. At 11' long and weighing under 15 pounds, it's Aquaglide's lightest touring kayak - thanks to the TPU/Nylon construction and TPU drop-stitch floor. This technology yields minimal weight in a kayak that doesn't sacrifice an ounce of performance. This boat comes with a compression storage bag for packability and serves double duty as a drybag for clothing and gear. The Cirrus 110 is the perfect companion for the overlander, backcountry enthusiast, or any paddler who values unparalleled kayak touring function in an ultralight package.

**Length: 335 cm/11' | Width: 84 cm/33" | Weight: 6.7 kg/12 lb | Max.Cap.: 136 kg/300 lb | Material: TPU Coated Nylon with TPO Drop-stitch Floor | Colors: Blue | Sizes: 110 & 150**

[AQUAGLIDE.COM](http://AQUAGLIDE.COM)

NEW  
2023

### AQUATONE - PLAYTIME 11'4" HYBRID SUP KAYAK

Who knew we could pack so much fun into one bag? The PLAYTIME 11'4" has a versatile open deck that makes it the perfect combination for both a kayak and a SUP. Offering riders the option to switch between the two styles freely. With optimal width and grip on the water, you'll find yourself making smooth and effortless transitions while on the water.

**Length: 345 cm/11'4" | Width: 86 cm/34" | Volume: 400 L | Thickness: 20 cm/8" | Weight: 10.8 kg/23.8lb | Max.Cap.: 150 kg/330lb**

[AQUATONE.COM](http://AQUATONE.COM)

NEW  
2023

### ZELGEAR - IGLA 410

The Igla kayak is the perfect sport boat for speed paddling, recreation and long distance trips. The bow has a profiled inflatable stern that cuts water with ease and rides up over the waves. It has a rigid shape and double bottom protection.

**Length: 410 cm/13'5" | Width: 83 cm/32.6" | Weight: 17 kg/37.5 lb | Max.Cap.: 200 kg/441 lb | Material: PVC | Colors: Red/Black . Blue/Black . Green/Black . Grey/Black . Black**

NEW  
2023

### AQUADESIGN - KOLOA X'PERIENCE 305

The X'PERIENCE KOLOA 305 inflatable kayak is an evolution of the Koloa 360, also available in 2 seats. Thanks to its ultra-comfortable inflatable seat in Dropstitch and its multiple fastening systems. It will allow you to carry all the equipment for long hikes and bivouac. It is equipped with universal fishing rod attachments, two camera mounts and paddle attachments for more freedom on the boat.

**Length: 305 cm/10' | Width: 96 cm/38" | Max.Cap.: 180 kg/396 lb | Material: 1100 DTEX PVC with 5" inflatable Dropstitch floor | Colors: Grey . Black . Orange**

[AQUADESIGN.EU](http://AQUADESIGN.EU)

NEW  
2023

## AQUATONE - GLACIER 12'6" ADVANCED SIT-IN 1-PERSON KAYAK

The GLACIER is a high-performance kayak designed to withstand beating waves. Thanks to its premium material and inflatable technology, you can experience the rigidity and performance of a hard shell in this inflatable kayak. Its sleek outline and V-shaped nose limit friction on the water. The raised nose rocker also boosts the speed to be always ready for an adrenaline-charged rush. It offers a portable choice for intermediate to advanced kayakers seeking to explore nature.

**Length: 370 cm/12'6" | Width: 75 cm/29.5" | Thickness: 30 cm/12" | Weight: 16 kg/35.3 lb | Max.Cap.: 145 kg/319 lb**

[AQUATONE.COM](https://www.aquatone.com)

## HOBIE - MIRAGE ITREK 9

The lightest and most maneuverable kayak in our fleet. Featuring the MirageDrive GT with Kick-Up Fins and intuitive rudder control, the Mirage iTrek 9 Ultralight can turn on its axis and navigate tight waterways with ease. Simply remove the seat and MirageDrive, grab the three-piece SUP paddle and the iTrek9 Ultralight is ready to be used as a stand-up platform.

**Length: 287 cm/9.5' | Width: 102 cm/40" | Weight: 16.8 kg/37 lb | Max.Cap.: 160 kg/350 lb | Material: 550 DENIER PVC**

[HOBIE.COM](https://www.hobie.com)

## HOBIE - MIRAGE ITREK 11

Built for everything from day trips to overnight escapes, the Mirage iTrek 11 inflatable kayak with perched seating is the perfect choice for any adventure. Its high-performance lightweight construction boasts the speed, stability, and tracking of a rigid kayak without the extra weight. The iTrek 11 is fun, nimble and lightning fast. Powered by the MirageDrive GT with Kick-Up Fins, reaching your favorite fishing spot has never been easier.

**Length: 325 cm/10'8" | Width: 102 cm/40" | Weight: 20 kg/44 lb | Max.Cap.: 181 kg/400 lb | Material: 550 DENIER PVC**

[HOBIE.COM](https://www.hobie.com)

## AQUADESIGN - K AIR 300

Our inflatable kayak K-AIR 300 is entirely designed in Hypalon, it benefits from a removable finned bottom which offers a very fluid glide. The K-AIR range is sold as a PACK, thigh brace and repair kit are provided. The K-AIR 300 is the versatile inflatable kayak for whitewater to go down rivers class I, II, III and IV serenely.

**Length: 300 cm/9'8" | Width: 88 cm/35" | Max.Cap.: 160 kg/352 lb | Material: 1100 DTEX HYPALON® with inflatable floor with beams | Colors: Red . Blue**

[AQUADESIGN.EU](https://www.aquadesign.eu)

## AQUAGLIDE - DESCHUTES

With its combination of length, stiffness, and light weight, the Deschutes 110 is designed for effortless paddling, portability, and ease of transport. The hull design features a low rocker profile for increased surface area on the water combined with sleek, narrow tubes for better tracking, glide, and speed. The Deschutes 110 is built for the adventurer looking for a lightweight, efficient open deck touring boat that's an excellent choice for single or multi-day expeditions.

**Length: 335 cm/11' | Width: 91 cm/36" | Weight: 8.2 kg/18.1 lb | Max.Cap.: 136 kg/300 lb | Material: Duratex | Colors: Orange/Yellow/Grey | Sizes: 110 . 130 . 145**

[AQUAGLIDE.COM](http://AQUAGLIDE.COM)

## AQUADESIGN - TWIKI I

The TWIKI I has been specially designed for the descent of rivers from class I to IV, they represent the new generation of K-air in PVC version. Its resistant 1100 dfex PVC structure and its high pressure Drop Stitch bottom offer an optimal rigidity guaranteeing an efficient navigation in the most violent rapids.

**Length: 290 cm/9'5" | Width: 87 cm/34" | Max.Cap.: 95 kg/210 lb | Material: 1100 DTEX PVC with 12.5 cm inflatable Dropstitch floor | Colors: Grey . Red**

[AQUADESIGN.EU](http://AQUADESIGN.EU)

## SPINERA - SUP-KAYAK 12.0

All of our Spinera SupKayak models are made of high-quality HDDS (High Density Drop Stitch). The removable bottom of our Spinera SupKajaks consists of 8 cm of high-density drop stitch and is provided with an extra valve. It can be used as a kayak or sup. The two-chamber safety system in all of our models offers a safe and good feeling on the water in any situation. All SUP kayaks come with a bag, fin, kayak seat, and repair kit without glue.

**Length: 365 cm/12'0 | Width: 98 cm/39 | Weight: 13 kg/28 lb | Max. Cap.: 200 kg/440 lb | Material: Double Layer - Double Chamber | Colors: Teal**

## AQUATONE - GLACIER 14'0" ADVANCED SIT-IN 2-PERSON KAYAK

The GLACIER is a high-performance kayak designed to withstand beating waves. Thanks to its premium material and inflatable technology, you can experience the rigidity and performance of a hard shell in this inflatable kayak. Its sleek outline and V-shaped nose limit friction on the water. The raised nose rocker also boosts the speed to be always ready for an adrenaline-charged rush. It offers a portable choice for intermediate to advanced kayakers seeking to explore nature.

**Length: 427 cm/14' | Width: 80 cm/31" | Thickness: 35 cm/14" | Weight: 18 kg/39.7 lb | Max.Cap.: 249 kg/550 lb**

[AQUATONE.COM](https://www.aquatone.com)

## AQUAGLIDE - MCKENZIE

The McKenzie 125 is a well-tracking, crossover kayak that provides stable and responsive one or two-person paddling in whitewater and flat-water conditions. A high rocker bow and stern design allow this kayak to blast over waves without burying the nose and increases maneuverability. And with its 12-foot 6-inch length and 600-pound carrying capacity, the McKenzie 125 has plenty of room for extra gear when solo or tandem paddling.

**Length: 378 cm/12'2" | Width: 87 cm/34.5" | Weight: 13.6 kg/30 lb | Max.Cap.: 272 kg/600 lb | Material: Duratex | Colors: Grey/Orange | Sizes: 105 & 125'**

[AQUAGLIDE.COM](https://www.aquaglide.com)

## SPINERA - HYBRIS 410

The Hybris series is the complete new all-round touring kayak line from Spinera. In 3 different sizes you can choose the right one for you. With the hybris kayaks you are well equipped on rivers, lakes and on the sea. A very stable kayak which offers the best gliding properties due to the smooth tarpaulin underbody. We know kayakers want more length for even better stability, therefore the Spinera Kayak Hybris 410 can be used as a one-seater or a two-seater.

**Length: 410 cm/13'4" | Width: 90 cm/35.4" | Weight: 13 kg/28 lb | Max. Cap.: 200 kg/440 lb | Material: HDDS -Triple Chamber | Colors:Teal**

[SPINERA.COM](https://www.spinera.com)

## TAHE - BREEZE FULL HP2

BREEZE FULL HP kayaks feature three high pressure chambers built with rugged Drop Stitch technology, pre-formed nose and tail sections. It creates a very rigid, high performance kayak with a 460lb/210kg capacity.

**Length: 410 cm/13'5" | Width: 85 cm/33.5" | Weight: 15.5 kg/34 lb | Max. Cap.: 210 kg/460 lb | Material: HP Drop Stitch**

[TAHESPORT.COM](https://www.tahesport.com)

## AQUAGLIDE - CHELAN

The Chelan 140 is one of the most versatile kayaks in the Aquaglide performance touring series. The unique combination of rugged Duratex™ tube construction with a drop stitch, hard-bottom floor results in a rigid and responsive open cockpit inflatable kayak. Outdoor water enthusiasts love the enhanced gear storage and thoughtful, customizable options. At only 33 pounds, this boat fits easily into the included backpack-style storage bag for effortless transportation and storage. Optimized for hull speed and paddling efficiency, the Chelan 140 is perfect for tandem outings, larger solo paddlers, or carrying extra gear.

**Length: 413 cm/13'6" | Width: 89 cm/35" | Weight: 15.9 kg/35 lb | Max.Cap.: 181 kg/400 lb | Material: Duratex | Colors: Blue/Grey | Sizes: 120 . 140 . 155**

[AQUAGLIDE.COM](https://www.aquaglide.com)

## ZELGEAR - SPARK 450

The inflatable Spark 450 kayak is one of the most popular models for touring paddling and for recreation.

**Length: 450 cm/14'8" | Width: 83 cm/32.6" | Weight: 20 kg/44.1 lb | Max.Cap.: 260 kg/573 lb | Material: PVC | Colors: Red/Black . Blue/Black . Green/Black . Grey/Black . Black**

[ZELGEAR.EU](https://zelgear.eu)

## AQUA MARINA - BETTA 13'6

The well-known BETTA series is mainly designed to provide fun for family, friends, or for any recreational use. Constructed of reinforced PVC material, these lightweight BETTA kayaks are ideal low-maintenance boats for those looking to get on the water in a versatile, easy-to-paddle craft. Featuring Aqua Marina's iconic outline shape, the new BETTA models are refreshed with a stunning look and upgraded with user-friendly details. Easy weekend trips or poking around the lakes and rivers near a cottage are where these kayaks will excel.

**Length: 412 cm/13'6" | Width: 80 cm/31" | Thickness: 42 cm/17"**

[AQUAMARINA.COM](https://aquamarina.com)

## AQUA MARINA - LAXO 10'6

The recreational LAXO series is upgraded with revolutionary protective hull fabric (AQUASHELL™ Technology) for 2022. The eye-catching new graphics are born to be ever-lasting through advanced digital printing techniques. Coming in three lengths to perfectly fit up to three people, LAXO models are ideal for exploring lakes and gentle rivers by offering a balance of stability and tracking. Perfect for beginners looking for ease of entry and exit on shorter trips.

**Length: 320 cm/10'6" | Width: 90 cm/35" | Thickness: 40 cm/16"**

[AQUAMARINA.COM](https://aquamarina.com)

## TAHE - BEACH K2

The new K BEACH AIR series is the perfect balance of stiffness, stability, and lightweight technology. The floor of the kayak features HP Drop Stitch technology, the stiffest technology available on the market, ensuring maximum comfort and glide. LP side chambers are made with a PVC Tarpaulin of reinforced 1000 denier, for stability, compactness, and fast inflation.

**Length: 385 cm/12'6" | Width: 85 cm/33.5" | Weight: 27 kg/60 lb | Max. Cap.: 200 kg/440lb | Material: Drop Stitch**

[TAHESPORT.COM](https://tahesport.com)

## AQUA MARINA - MEMBA 12'10

Featuring a sleek, curved touring shape, and extra-long waterline, the MEMBA series excels in tracking and speed. Perfect for adventurers looking for an efficient long-distance touring kayak. Constructed of our signature AQUASHELL™ fabric technology, the refreshed MEMBA kayaks are ultra-durable with anti-UV protection and long-lasting graphics. The low rocker hull design combined with the stiff high-pressure drop stitch deck results in more glide, better tracking, and effortless paddling. Weighing only 13.4 kg and 17 kg for solo and tandem models respectively, the MEMBA packs neatly in the newly-designed backpack for easy storage and transportation.

**Length: 390 cm/12'10" | Width: 90 cm/35" | Thickness: 45 cm/18"**

[AQUAMARINA.COM](https://aquamarina.com)

## MOAI - KAYAK KANALOA 2

The Kanaloa 2 pers. is suitable for calm lakes but also for rough water, so you can paddle in any direction.

**Length: 430 cm/14' | Width: 78 cm/30.7" | Weight: 19.5 kg/43 lb | Max.Cap.: 210 kg/463 lb | Material: PVC (Drop-stitch technology) | Color: Petrol Blue**

[MOAIBOARDS.COM](https://moaiboards.com)

## AQUA MARINA - STEAM 13'6

The newly re-designed STEAM series is a premium choice for all types of paddling, perfect for both performance touring adventurers and mild river running lovers. Featuring ultra-durable welded tube construction and a high-density drop stitch floor, these open cockpit inflatable kayaks are extremely rigid and responsive. The new models have been optimized for higher hull speed and better tracking performance with a more streamlined outline. Other river-specific features make these rugged kayaks tough enough to tackle class III whitewater. The 2022 STEAM are all-around champions capable of handling any type of adventure, sleeker and faster than ever before!

**Length: 412 cm/13'6" | Width: 90 cm/35" | Thickness: 30 cm/12"**

[AQUAMARINA.COM](https://www.aquamarina.com)

## ABSTRACT - SAORI 360

The SAORI 360 is a 2-seater inflatable kayak. Dedicated to versatile practice in the sea, lake and river up to class III. It is equipped with a self-bailing system and two removable fins to adapt to its environment.

**Length: 360 cm/11'8" | Width: 90 cm/35" | Max.Cap.: 180 kg/397 lb | Material: 1100 DTEX PVC with 4" inflatable Dropstitch floor | Colors: Saphie**

[ABSTRACT-SPORT.COM](https://www.abstract-sport.com)

## GUMOTEX - RUSH 2

The RUSH 2 is a versatile kayak with an innovative design further expanding the possibilities of drop-stitch technology (hydro-dynamically shaped bow, keel formation). The RUSH is suitable for recreation, boat wandering, calm lakes, cruising along the seashore, as well as navigating rivers up to WW2. For better comfort in poor weather conditions, it can be equipped with a rudder or a removable cockpit (recommended accessories). The RUSH 2 kayak can be used as a single or as a double kayak.

**Length: 420 cm/13.8' | Width: 82 cm/32.3" | Weight: 15.5 kg/34 lb**

[GUMOTEXBOATS.COM](https://www.gumotexboats.com)

## AQUADESIGN - KOLOA X'PERIENCE 360

The X'PERIENCE KOLOA 360 inflatable kayak is an evolution of the Koloa 360. Thanks to its two inflatable seats ultra comfort in Dropstitch and its multiple systems of fixing. It will allow you to carry all the equipment for long hikes and bivouac. It is equipped with universal fishing rod attachments, two camera mounts and paddle attachments for more freedom on the boat.

**Length: 360 cm/ 11'8" | Width: 100 cm/ 39" | Max. Cap.: 215 kg/474 lb | Material: 1100 DTEX PVC with 5" inflatable Dropstitch floor | Colors: Grey/Black/Orange**

[AQUADESIGN.EU](https://www.aquadesign.eu)

## AQUADESIGN - K AIR 380

Our inflatable kayak K-AIR 380 is entirely made of Hypalon, it has a removable finned bottom which offers a very fluid glide. The K-AIR range is sold as a PACK, thigh brace and repair kit are provided. The K-AIR 380 is an inflatable kayak suitable for two people. It can be used to paddle down class I, II, III and IV rivers or to paddle on lakes.

**Length: 380 cm/12'5" | Width: 94 cm/37" | Max.Cap.: 250 kg/551 lb | Material: 1100 DTEX HYPALON® with inflatable floor with beams | Colors: Red . Blue**

[AQUADESIGN.EU](https://www.aquadesign.eu)

## TAHE - BREEZE FULL HP2 PRO

This is the Pro version of our best-selling Full HP kayak. The Breeze Full HP Pro is a high-pressure two-seater fully-fitted inflatable kayak. You can also configure it as a single-seater (adjustable seat positions) making extra storage space available at the same time. Its ingenious rudder system means you can hold your course easily or steer the kayak using the foot rests.

**Length: 473 cm/15'5" | Width: 83 cm/32.5" | Weight: 19 kg/42 lb | Max. Cap.: 250 kg/550 lb | Material: HP Drop Stitch**

[TAHESPORT.COM](https://www.tahesport.com)

## GUMOTEX - SEAWAVE

Thanks to its long narrow shape, the SEAWAVE kayak is easy to control and very fast. It can be converted from a three-person version into a two-person or one-person kayak by moving the seats. The installation possibility of an optional deck makes the SEAWAVE a great sea kayak. Aluminium reinforcements support the deck and stiffen the kayak's hull. The floor features a pronounced keel for handling in the wind and better tracking. The SEAWAVE is an excellent touring kayak suitable also for sea kayaking in sheltered waters.

**Length: 455 cm/14.9' | Width: 83 cm/32.3" | Weight: 17.5 kg/38.6 lb**

[GUMOTEXBOATS.COM](http://GUMOTEXBOATS.COM)

## AQUADESIGN - TWIKI II

The TWIKI II has been specially designed for the descent of class I to IV rivers in duo, they represent the new generation of K-air in PVC version. Its resistant 1100 dtex PVC structure and its high pressure Drop Stitch bottom offer an optimal rigidity guaranteeing an efficient navigation in the most violent rapids.

**Length: 385 cm/12'6" | Width: 90 cm/35" | Max.Cap.: 220 kg/485 lb | Material: 1100 DTEX PVC with 12.5 cm inflatable Dropstitch floor | Colors: Grey . Red**

[AQUADESIGN.EU](http://AQUADESIGN.EU)

## SPINERA - ADRIATIC 430

The Adriatic is a high-strength inflatable kayak for the upscale. This kayak is equipped with a 2-chamber safety system and double-layer PVC construction. Core of the Adriatic is dropstitch construction, which gives very good strength and stability to the sides and bottom of the kayak. The kayak comes with two fins & kayak seats.

**Length: 426.5 cm/14' | Width: 92.5 cm/36.4" | Weight: 14.1 kg/31 lb | Max. Cap.: 220 kg/485 lb | Material: Double Layer Ultra Light - Double Chamber | Colors: Teal**

## INFLATABLE 3 & 4

OFFERING MORE STABILITY THAN PLASTIC KAYAKS AND MAKING RIVER RUNNING ACCESSIBLE TO A WIDE VARIETY OF PADDLERS.

### AQUA MARINA - TOMAHAWK AIR-C

Created for explorers, the ultra-stable and rigid long waterline is great for tracking with its moulded keels. Our 2023 AIR-C has also been upgraded to include three additional drop-stitch cushions to raise the seat and provide unparalleled comfort. This versatile 2 to 3 person canoe is ready for your next adventure right out of the box!

**Length: 478 cm/15'8" | Width: 88 cm/35" | Weight: 24.7 kg/54.5 lb**

[AQUAMARINA.COM](https://www.aquamarina.com)

### AQUATONE - BLAST 13'6" RECREATIONAL SIT-IN 3-PERSON KAYAK

It's always the more the merrier when it comes to kayaking. That's why the BLAST 13'6" Recreational Kayak comes fully equipped with 3 additional removable kayak seats for you and your partner to have a BLAST! Featuring industry-leading designs, this highly versatile recreational kayak is built with a premium drop-stitch high-pressure cockpit to offer our riders the ultimate stiffness and comfort.

**Length: 410 cm/13'6" | Width: 103 cm/40.2" | Thickness: 27 cm/11" | Weight: 13.6 kg/30 lb | Max.Cap.: 250 kg/540 lb**

[AQUATONE.COM](https://www.aquatone.com)

### AQUA MARINA - RIPPLE

The brand-new RIPPLE model is a recreational two or three-person canoe specifically designed with enhanced gear capacity for family paddlers carrying everything for a weekend outing. Featuring an ultra-comfortable deck floor and a generous warming-up area, this inflatable canoe is super-stable and makes you feel safe on the water. Constructed of CO-FABRIC™ Technology and featuring a long waterline, RIPPLE is a true lightweight canoe designed with portability and ease of use in mind, while combining straight tracking performance. Get ready to explore remote locations with our new RIPPLE for an effortless paddling experience!

**Length: 370 cm/12'2" | Width: 85 cm/33" | Thickness: 40 cm/16"**

[AQUAMARINA.COM](https://www.aquamarina.com)

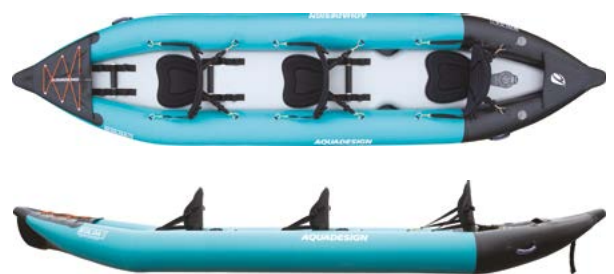

### AQUADESIGN - KOLOA 400

The Koloa semi-professional inflatable kayak is available in a 3-person version for multipurpose use on the sea, lake and river up to class III. Designed with a technical Dropstitch bottom and a molded bow, the Koloa offers exceptional sailing comfort in all conditions.

**Length: 400 cm/13'1" | Width: 100 cm/39" | Max.Cap.: 250 kg/551 lb | Material: 1100 DTEX PVC with 10cm inflatable Dropstitch floor | Colors: Black . Blue**

[AQUADESIGN.EU](https://www.aquadesign.eu)

# RAFT

INFLATABLE RAFTS PROVIDE THE OPPORTUNITY FOR DAYS ON THE RIVER WITH THE WHOLE CREW, WITH ROOM FOR THE DOG TOO.

## AQUADESIGN - RAPTOR 425

The RAPTOR 425 is made of Hypalon® 1100 dtex fabric for the tubes, the lining of the lower part of the tubes and the self-draining finned bottom (upper part). The bottom, on the other hand, is lined with a taut Hypalon® 1680 dtex bottom (lower part). It is an undeniable adventure ally, its Hypalon® construction makes it stronger and therefore more durable.

**Length: 425 cm/14' | Width: 200 cm/79" | Material: 1100 DTEX HYPALON® with inflatable floor with beams | Colors: Red . Blue**

[AQUADESIGN.EU](https://www.aquadesign.eu)

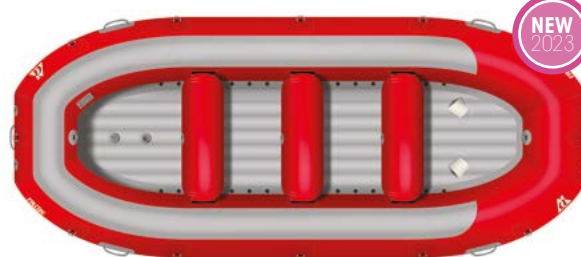

## AQUADESIGN - FALCON 420

The Falcon raft is the ultimate downhill raft. With its Hypalon® construction and front and rear rocker, the Falcon is ideal for adventurers looking for speed, durability, and performance. The Falcon 9 person raft is equipped with 12 reinforced D-rings with lifelines, removable and adjustable thwarts with a bar attachment, reinforced Hypalon® handles and non-slip fabric reinforcement around the raft.

**Length: 420 cm/13'7" | Width: 177 cm/70" | Material: 1100 DTEX HYPALON® with inflatable floor with beams | Colors: Red . Blue**

[AQUADESIGN.EU](https://www.aquadesign.eu)

## AQUADESIGN - AVANTI 445

The AVANTI 445 raft can accommodate up to 9 people. Tubes made of 1100 DTEX PVC fabric with lining under the tubes and under the bottom in 1680 DTEX, carrying handles are made of reinforced PVC, thwarts are sewn and glued, reinforced D-rings. The high quality fabric will guarantee you a very good flexion and mobility during the navigation. For a better resistance to abrasion, the tubes are lined up to the anti-scratch strip.

**Length: 445 cm/14'5" | Width: 191 cm/75" | Material: 1100 DTEX PVC with inflatable floor with beams | Colors: Yellow . Red . Blue**

[AQUADESIGN.EU](https://www.aquadesign.eu)

## AQUADESIGN - AVANTI 420

The AVANTI 420 raft can accommodate up to 9 people. Tubes made of 1100 DTEX PVC fabric with lining under the tubes and under the bottom in 1680 DTEX, carrying handles are made of reinforced PVC, thwarts are sewn and glued, reinforced D-rings. The high quality fabric will guarantee you a very good flexion and mobility during the navigation. For a better resistance to abrasion, the tubes are lined up to the anti-scratch strip.

**Length: 420 cm/13'8" | Width: 190 cm/75" | Material: 1100 DTEX PVC with inflatable floor with beams | Colors: Yellow . Red**

[AQUADESIGN.EU](https://www.aquadesign.eu)

## AQUADESIGN - AVANTI 400

The AVANTI 400 raft can accommodate up to 8 people. Tubes made of 1100 DTEX PVC fabric with lining under the tubes and under the bottom in 1680 DTEX, carrying handles are made of reinforced PVC, thwarts are sewn and glued, reinforced D-rings. The high quality fabric will guarantee you a very good flexion and mobility during the navigation. For a better resistance to abrasion, the tubes are lined up to the anti-scratch strip. Can accommodate up to 8 people.

[AQUADESIGN.EU](https://www.aquadesign.eu)

## PACKRAFT

SMALL, LIGHT, PORTABLE INFLATABLE BOAT DESIGNED FOR USE IN ALL BODIES OF WATER, INCLUDING TECHNICAL WHITEWATER AND OCEAN BAYS AND FJORDS.

### AQUADESIGN - DUO TPU 315

Looking for a duo adventure? The two-seater packraft is perfect for the traveler who wants to get on the water anywhere. Its loading capacity, its light weight and its resistance will allow you to take it on each of your expeditions.

**Length:** 315 cm/ 10'4" | **Width:** 92 cm/ 36" | **Max.Cap.:** 220 kg/485 lb | **Material:**TPU | **Colors:** Grey . Black . Blue

[AQUADESIGN.EU](https://www.aquadesign.eu)

### AQUADESIGN - RIVER TPU 290

Don't be held back by the river anymore! The packraft river TPU 290 is decked to stay dry in all conditions. The front of the deck has a Velcro hatch that allows access to the area between the legs, which can accommodate your backpack. With a huge rocker in the front and a large volume in the back, you'll be able to ride the rapids with confidence. For more security, it is designed with two inflatable compartments.

**Length:** 290 cm/ 9'5" | **Width:** 90 cm/ 35" | **Max. Cap.:** 160 kg/353 lb | **Material:**TPU | **Colors:** Grey/Black/Blue

[AQUADESIGN.EU](https://www.aquadesign.eu)

### JAWS - ICARE 3 HD

This packraft is specially designed for two types of users: experienced practitioners who love whitewater beyond Class III, and whitewater beginners with professional guidance. The ICARE packraft is equipped with a pontet, a coaming whose rigidity is obtained by means of a plastic rod that penetrates the walls of the coaming (two openings available to thread the rod). The stiffness of the coaming lets you use a neoprene skirt. The fixed pontet allows you to transport your bags in the front of the packraft for journeys of several days. You can even transport your bike from river descents to mountain bike trails.

**Length:** 250 cm/8'2" | **Width:** 94 cm/37" | **Weight:** 3.2 kg/7 lb

[JAWS-PACKCRAFT.COM](https://www.jaws-packcraft.com)

### KOKOPELLI - NIRVANA SELF-BAILING

The Nirvana Self-Bailing is designed to keep you charging down even the rowdiest rapids, with the perfect blend of stability and durability. The Self-Bailing design minimizes weight, setup complexity, is easier for constant scouting, and is faster for self-rescue. Featuring 840d DuPont™ Kevlar® Aramid-Nylon Blend reinforced floor system, Leafield D7 valves, and internal tie-downs, the Nirvana Self-Bailing is designed for your water-accessed adventures.

**Capacity:** 136 kg/300 lb | **Weight:** 3.3 kg/7.3 lb | **Packed Size (Rolled):** 14" x 10"/36 x 25 cm h

[KOKOPELLI.COM](https://www.kokopelli.com)

## AQUAGLIDE - EXPEDITION 85

When your adventures involve paddling longer distances or carrying additional gear, the Expedition 85 is an ultralight touring workhorse. At 8'-6" long and weighing only 12-pounds, this boat tracks straight, and it has the capacity and features to organize and carry gear efficiently. If you're looking for an ultralight, expedition-ready solo touring kayak, look no further than the Expedition 85..

**Length: 254 cm/8'4"** | **Width: 90.2 cm/35.5"** | **Weight: 5.44 kg/12 lb** | **Max.Cap.: 300 lb** | **Material: 2X TPU** | **Colors: Blue/Green** | **Sizes: 85**

[AQUAGLIDE.COM](https://www.aquaglide.com)

## VERANO WATERSPORTS - CHATTANOOGA PACKRAFT

The super light Chattanooga Packraft: Classic design for fun and safety in white water. Hull made of light and strong TPU. Perfect packraft for combined trekking and whitewater trips. The packraft comes fully equipped with seat, backrest, whitewater deck, spray deck and cargo fly.

**Length: 235 cm/7.7'** | **Width: 96 cm/37.8"** | **Tube diameter: 30 cm/18.8"** | **Weight: 3.5 kg/7.7 lb**

[VERANOWATERSPORTS.COM](https://www.veranowatersports.com)

## JAWS - TITAN 3 HD

Because happiness is greater when you share it, Team JAWS designed the TITAN: a packraft for two people (2 adults or 1 adult + 1 child). Cross a lake, descend a river, or walk along a coastline in comfort and safety. The thwart adjusts according to the size of the paddlers, a breakwater protects against splashes and helps carry equipment, and a self-draining bottom prevents flooding. The thwart allows optimization of safety in river navigation, plays the role of a backplash for the front paddler, and provides a comfortable backrest or footrest for increased support and a better forward stroke.

**Length: 350 cm/11'6"** | **Width: 94 cm/37"** | **Weight: 5.4 kg/11.9 lb**

[JAWS-PACKRAFT.COM](https://www.jaws-packcraft.com)

## TUBING

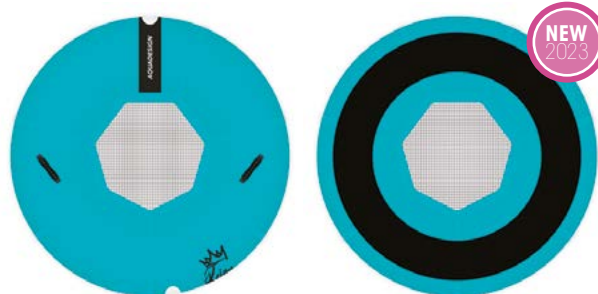

LARGE INFLATED INNER TUBES DESIGNED FOR RIDING ON WATER OR SNOW

## AQUADESIGN - TUBING REIGN

The new REIGN 110 tubing has been designed in a special way, the volume at the back is deliberately higher than at the front, allowing for a more pleasant and comfortable seat. This construction allows a maximum feeling on the water, and for more robustness the bottom is reinforced.

**Diameter: 110 cm/ 44"** | **Max.Cap.: 85 kg /187 lb** | **Material: 1100 DTEX PVC** | **Colors: Blue**

[AQUADESIGN.EU](https://www.aquadesign.eu)

## FOLDABLE 1

BOATS DESIGNED TO PACK DOWN FOR EASY TRANSPORT AND STORAGE.

### NAUTIRAID - NOOK

With the NOOK, Nautiraïd wants to take its experience with Greenlandic-inspired kayaks even further. In 2010 the famous NARAK 550 left the Mayenne workshops. Now it is time for the NOOK to make its entrance! Based on authentic Greenlandic kayaks, this kayak's sleek design will appeal to rolling enthusiasts. "Balance brace", "Butterfly roll" and other manoeuvres will be easy. Its' taut lines, sharp chines and low volume make it a very dynamic, fast kayak with almost no wind resistance. You will appreciate the purity of its glide again and again! Assembly time: 15 mins.

**Length: 545 cm/17'9" | Width: 51 cm/20" | Weight: 19.5 kg/43 lb | Max.Cap.: 110 kg/242 lb**  
**| Material: PVC skin, Wooden frame | Deck colors : Black . White . Blue . Red . Orange . Grey**

[NAUTIRAID.COM](http://NAUTIRAID.COM)

### NAUTIRAID - UMIK 475

The Umiak 475 received the "Canoe of the Year Award" in 2019 at the Paddle Expo Show. Its size (15'7 ft) is ideal for paddling solo (the seat can be positioned in the middle of the craft) or with crewmate or family on board, on rivers and lakes. Its dynamics are equal than rigid canoes on the water thanks to its very rigid aluminum 7070 frame. Stable yet easy to manoeuvre, its stabilisers give an extra buoyancy and elegant lines. The new sand colour makes a very beautiful boat on the water. Assembly time : 20 min.

**Length: 475 cm/15'7" | Width: 90 cm/35.4" | Weight: 23 kg/50.7 lb | Max.Cap.: 320 kg/705 lb**  
**| Material: PVC skin, Aluminium frame | Colors: Sand . Blue . Khaki . Red . White | Sizes: 390 . 475 . 520**

[NAUTIRAID.COM](http://NAUTIRAID.COM)

## MODULAR KAYAKS

KAYAKS DESIGNED WITH INTERLOCKING PARTS FOR EASE OF STORAGE AND TRANSPORT.

### KAYAK INNOVATIONS - NATSEQ

The NATSEQ modular kayak, completely made in Germany, features a unique, patent-pending lock system that permits unprecedented locking between the modules. Unsinkable by hermetic single modules. The NATSEQ is a highly performing kayak, for rivers, lakes, and coastal waters. It is very easy to transport and can be assembled within one minute for the tandem and less for the solo kayak. The NATSEQ doesn't need storage in a boathouse or transport on a roof rack—taking up less than one square meter of space, it fits easily in your home or car.

**Length: 409 cm/13'5" | Width: 59 cm/23" | Weight: 29 kg/64 lb | Volume: 341 L/90 G**

[KAYAK-INNOVATIONS.COM](http://KAYAK-INNOVATIONS.COM)

### KAYAK INNOVATIONS - NATSEQ TANDEM

The NATSEQ modular kayak, completely made in Germany, features a unique, patent-pending lock system that permits unprecedented locking between the modules. Unsinkable by hermetic single modules. The NATSEQ is a highly performing kayak, for rivers, lakes, and coastal waters. It is very easy to transport and can be assembled within one minute for the tandem and less for the solo kayak. The NATSEQ doesn't need storage in a boathouse or transport on a roof rack—taking up less than one square meter of space, it fits easily in your home or car.

**Length: 560 cm/18'5" | Width: 59 cm/23" | Weight: 45 kg/99 lb | Volume: 544 L/144 G**

## HIGH END & PEDALBOATS

FISHING KAYAKS FOR THOSE DEMANDING ELITE PERFORMANCE WHEN IN SEARCH OF THE BIGGEST CATCH.

### BIG MAMA KAYAK - TRIKEN LIGHT

The TrikenLight's bottom design provides confidence-inducing stability and ultimate maneuverability. The TrikenLight is the best kayak for a truly epic ride, perfect for a weekend of exploring/fishing. Weighing only 24 kg, you can easily throw it on the car. The Cordura seat, designed for comfort is elevated to keep you dry all day. It features a front water tight compartment, eight rail bars for accessories and kayak customization.

**Length: 330 cm/10.8' | Width 89 cm/35" | Weight: 24 kg/53 lb**

[BIGMAMAKAYAK.IT](http://BIGMAMAKAYAK.IT)

### BIG MAMA KAYAK - TRIKEN 330

The Triken 330 is a kayak with maximum stability, suitable for the most demanding fisherman. Very fast and hydrodynamic, and made in Italy. Comes All Inclusive, the Triken330 is delivered with two internal rod holders and two adjustable rod holders. It features two water tight compartments. It also features eleven accessory bars that allow you to customize the kayak. It's comfortable premium Cordura chair adjusts to the fisherman's size. Molded storage area with battery and transducer accessibility.

**Length: 330 cm/10.8' | Width 90 cm/35.4" | Weight: 32 kg/70.5 lb**

[BIGMAMAKAYAK.IT](http://BIGMAMAKAYAK.IT)

### HOBIE - MIRAGE LYNX

The Lynx's flat-bottom design provides confidence-inducing stability and ultimate maneuverability. The effortless speed of the MirageDrive 180 with Kick-Up Fins combined with the streamlined, sleek hull of the Lynx make for a truly epic ride. Less is more when it comes down to construction. Lightweight materials meet optimal performance with ACE-TEC Technology that is perfect for a weekend of fishing/exploring. Weighing in at only 21.5KG and equipped with rear loading skid pads, easily throw it on the roof of your car for uncomplicated transport. The best seat in the house, designed for comfort with breathable, mono-mesh, elevated to keep you dry all day. The wide bow creates a smoother ride and ample storage for your gear. Available now in Catalina Blue.

**Length: 335 cm/11' | Width: 92 cm/36" | Weight: 29 kg/63 lb | Max.Cap.: 159 kg/350 lb | Material: ACE-TEC Construction**

[HOBIE.COM](http://HOBIE.COM)

### HOBIE - MIRAGE OUTBACK

The Mirage Outback truly is legendary. The extra-wide standing deck offers an excellent casting platform. The Guardian Transducer Shield gives you multidimensional vision below. The new Vantage CTW seat provides extra width for unmatched room and comfort. Molded-in rod holders, deluxe H-Track mounts, and numerous storage compartments ensure that all of your gear is at your fingertips. Dual steering handles that operate the Kick-Up Rudder. It's powered by the MirageDrive 180 fitted with the revolutionary new Kick-Up Fin System that fold back on contact. Available now in Sunrise Camo.

**Length: 389 cm/12'9 | Width: 86 cm/34" | Weight: 47 kg/103 lb | Max.Cap.: 193 kg/425 lb | Material: Rotomolded Polyethylene**

[HOBIE.COM](http://HOBIE.COM)

## JACKSON KAYAK - BITE FD

The Bite FD is designed from the water up to provide you with top performance without requiring a lot of maintenance. Bite FD focuses on three key factors: power, propulsion, and steering. The deck offers unbelievable stability for sitting or standing. The front and rear provide impeccable storage space to haul your gear, with durable bungee cords to keep gear secure on your wildest adventures. Gear tracks let you easily attach your accessories and customize your kayak the way you want. The Bite FD is packed with efficiency, comfort, and versatility to make adventures more convenient for any water enthusiast!

**Length: 350.5 cm/11'6" | Width: 91.4 cm/36" | Weight: 43.5 kg/96 lb | Colors: Earth . Forest . Rockfish**

[JACKSONKAYAK.COM](http://JACKSONKAYAK.COM)

## HOBIE - MIRAGE PASSPORT 10.5

The Passport 10.5 takes you anywhere you want to go with ease and world-class authority. Every feature is designed with your entertainment in mind. Sail open water or fish the flats. We made sure you can do both thanks to the vertical accessory tube and molded in rod holders. Power through the water with the fast and efficient MirageDrive with Glide Technology and Kick-Up Fins. The easy-to-use steering system and simplified version of our twist-and-stow rudder puts navigation at your fingertips and a smile on your face. A paddle is included for times when you want that extra arm workout.

**Length: 320 cm/10.5' | Width: 86 cm/34" | Weight: 34 kg/75 lb | Max.Cap.: 147 kg/325 lb | Material: Thermoformed Polyethylene**

[HOBIE.COM](http://HOBIE.COM)

## RTM - HIRO ANGLER IMPULSE DRIVE

The HIRO Impulse Drive is a new pedal drive fishing kayak from RTM. Inspired by Bass Boats, our designers created a stable, fast, and ergonomic design that meets the expectations of kayak fishermen. Powered by the Impulse Drive, this proven pedal system is lightweight and allows you to move forward and in reverse. A large rudder operated by a joystick makes this kayak easy to handle. Its comfortable premium chair adjusts to the fisherman's size. Molded storage area with battery and transducer accessibility. This new hands-free fishing kayak is ready for adventure.

**Length: 362 cm/11'9" | Width: 87 cm/34" | Thickness: 40 cm/16" | Weight: 35 kg/77 lb | Max. Cap.: 180 kg/397 lb | Material: HDPE**

[RTMKAYAKS.COM](http://RTMKAYAKS.COM)

## JACKSON KAYAK - COOSA FD

The Coosa FD is based on the top-selling Coosa HD hull and deck layout but adds our Flex Drive 3D system allowing for hands-free propulsion. The new Flex Drive 3D offers forward and reverse operation and includes a unique articulating system for deep and shallow water navigation, and the prop is easy to access as needed. The Coosa FD comes with fore-aft trimming and our High Ergo Seat Frame with MOLLE System that puts the pedaler in the most comfortable position possible. The Flex Drive 3D is easily deployed with the flip of a lever and is upgradable to our Flex Drive E motor system..

**Length: 383.5 cm/12'7" | Width: 88.4 cm/34.8" | Weight: 48.5 kg/107 lb | Colors: Earth . Forest . Rockfish**

[JACKSONKAYAK.COM](http://JACKSONKAYAK.COM)

## JACKSON KAYAK - KNARR FD

Jackson Kayak conquers the water with the Knarr FD, a kayak 100% dialed in on the challenges presented by oceans and large lakes. Bring on the surf, current, wind, tide and the elements - these are the focus behind the Knarr's design. Working with a team of expert big water, big game and tournament anglers, designer Tony Lee hand-shaped the hull with their challenges in mind. The Knarr is crafted for maximum speed, stability, handling surf and tracking in any weather or water conditions. This incredible kayak combined with the new FD Mark IV (Patented) makes this our most efficient pedal kayak ever. In addition, innovative features like the Jackson Kayak Tri Track system and motor ready geometry make it one of the easiest kayaks to rig for any situation.

**Length: 420 cm/13'9" | Width: 94 cm/37" | Capacity: 193 kg/425 lb | Total Weight: 63.5 kg/140 lb**

[JACKSONKAYAK.COM](http://JACKSONKAYAK.COM)

## HOBIE - MIRAGE PASSPORT 12

The 12-foot Mirage Passport takes you where you want to go with ease and world-class authority with pedal propulsion. When you're not relaxing in the Passport's breathable mesh seat, a wider cockpit area with EVA floor padding provides a stable platform for standing and stretching your legs or casting a lure. Stash equipment on the bow or stern cargo areas and more below deck access through the center 8" Twist-n-Seal hatch. Anglers will be happy that there's a transducer cavity and scupper for simple install of your favorite fishfinder and a Power-Pole® Micro bracket indent to mount your favorite shallow water anchor. Additional features include steering system with stowable rudder, two fishing rod holders, accessory tracks, and under seat and gunnel tackle storage.

**Length: 360 cm/12' | Width: 86 cm/34" | Weight: 38 kg/83 lb | Max.Cap.: 181 kg/400 lb | Material: Thermoformed Polyethylene**

[HOBIE.COM](http://HOBIE.COM)

## HOBIE - MIRAGE PRO ANGLER 12 360

With the all-new MirageDrive 360 and Kick-Up fins, move through the water without constraints, going exactly where you want to go. Effortlessly spin and move in every direction. Hobie's new Kick-Up Fins which immediately retract on impact – even shallow areas are now entirely navigable. Logs, kelp, shallows, rocks, no problem. The PA 12 is packed full of features including six rod holders, the adjustable, elevated Vantage ST seat, extra wide hull and stain-resistant EVA padding.

**Length: 366 cm/12' | Width: 91 cm/36" | Weight: 60 kg/133 lb | Max.Cap.: 227 kg/500 lb | Material: Rotomolded Polyethylene**

[HOBIE.COM](http://HOBIE.COM)

## CATA-BOATS

FISHING KAYAKS FOR THOSE DEMANDING EXTRA STABILITY

## JACKSON KAYAK - BLUE SKY 360 PRO

The Blue Sky 360 Pro comes rigged and ready to fish with features like a DC battery box, mounting options for either foot-controlled or transom-mounted trolling motors, wide, open deck layout and tracking skeg. The 360 Pro blends the functionality, stability, and features of a power boat with the sleek performance of a kayak. Designed to fit in a truck bed and be rolled right into the water with its retractable wheels, the 360 Pro is one of the most versatile and capable fishing platforms on the market. The dual hull design provides incredible stability even in heavy chop. Perfect for large lakes, ponds, and inshore saltwater fishing.

**Length: 408.94 cm/13'5" | Width: 152.4 cm/60" | Weight: 77.1 kg/170 lb**

[JACKSONKAYAK.COM](http://JACKSONKAYAK.COM)

## JACKSON KAYAK - BLUE SKY 360 ANGLER

For those who want a kayak specifically designed for fishing, the 360° Angler doesn't compromise. It maximizes space, comfort, accessories, and storage while still giving you the stealth and ability to get to those skinny/shallow waters the big boats can't. The 360 Angler features the stability of a bass boat with the convenience of a kayak. Featuring Jackson Kayak Mark IV Flex Drive system pedaling and maneuvering has never been easier. The dual hull design provides incredible stability even in heavy chop. Perfect for large lakes, ponds, and inshore saltwater fishing. Roll right from the back of your truck to the boat launch.

**Length: 325 cm/10'8" | Width: 83.8 cm/33" | Weight: 29 kg/64 lb**

## MID RANGE

MID-RANGE DESIGNS ALLOW KAYAK ANGLERS THE ABILITY TO SIT OR STAND WITH COMFORT, AND CUSTOM PLACES TO STORE THE GEAR THEY NEED.

### TAHE - JAVA FISHING

The Java features a long waterline and smooth hull design for efficiency during longer distance adventures while remaining stable and easy to paddle. Designed for one person use with a capacity of 330lbs/150kg the Java is ideal for touring, cruising and fishing. An innovative wheel transport system at the stern makes transport a breeze, and the wide-body wheels are stowed in integrated wheel wells when not in use.

**Length: 410 cm/13'5" | Width: 71 cm/28" | Weight: 29 kg/64 lb | Max. Cap.: 150 kg/330 lb | Material: TST**

[TAHESPORT.COM](http://TAHESPORT.COM)

NEW  
2023

### AQUAGLIDE - BLACKFOOT

Named after the legendary Blackfoot River in Montana, the Blackfoot 130 is an ideal solo angling kayak with plenty of space for gear or an extra seat if needed. Loaded with features and optimized to impress the most sophisticated anglers, the 130 features Duratex™ construction and high-pressure drop-stitch floor for durability and performance in a package that can go almost anywhere. If you spend every waking hour chasing fish, the possibilities are endless with the Blackfoot Angler 130.

**Length: 396 cm/13' | Width: 96.5 cm/38" | Weight: 18.6 kg/41 lb | Max.Cap.: 295 kg/650 lb | Material: Duratex | Colors: Grey/Blue | Sizes: 130 & 160**

[AQUAGLIDE.COM](http://AQUAGLIDE.COM)

### JACKSON KAYAK - YUPIK

Named for the native Alaskan peoples that coined the word "kayak" (qajaq), the Jackson YuPIK changes the very definition of versatility. The 2021 model includes our latest seating innovation, the Comfort Seat, featuring a new ergonomic bend to the back and robust frame to provide hours of comfort on the water. Bow To Stern track systems, rigging solutions, and storage pockets molded in along the entirety of the boat allow you to rig for your adventure without limitation. Customize your fun with more room! The YuPIK is the most versatile kayak on the market—check out our accessory line for even more options on the water!

**Length: 370.8 cm/12'2" | Width: 88.4 cm/34.8" | Weight: 40.8 kg/90 lb | Colors: Earth . Forest . Rockfish**

[JACKSONKAYAK.COM](http://JACKSONKAYAK.COM)

### JACKSON KAYAK - COOSA X

Jackson Kayak deepens its roots in river fishing with this updated take on the Coosa line. They have taken their extensive knowledge of moving water hull design and combined it with input from their fishing team to create a true JK Team Signature Watercraft. The Coosa X is stable, maneuverable, easily rigged, and is the next evolution river fishing watercraft. Featuring several innovations including Jackson's TriTrack and in hull rod storage system, the Coosa X is laid out to meet a variety of rigging needs. With added volume in the bow for river running and moving water the Coosa X is designed to be the best river and small water fishing kayak we have ever made. This is the ideal kayak for adventure river trips, kayak camping, river fishing, small lake and pond hopping, or exploring small creeks and tributaries..

**Length: 355.6 cm/11'8" | Width: 91.4 cm/36" | Capacity: 181.4 kg/400 lb | Total Weight: 44.5 kg/98 lb**

[JACKSONKAYAK.COM](http://JACKSONKAYAK.COM)

### JACKSON KAYAK - BITE ANGLER

With the trend in price-point fishing kayaks tending towards compromise in hull quality, performance, gear management, and comfort, Jackson Kayak's Bite Angler doesn't cut corners. The open-concept deck gives the angler one of our roomiest platforms to stand and fish, with ample storage fore and aft. New for 2021, the Bite Angler has been upgraded to the Comfort Seat. The gear track has also been upgraded to aluminum for enhanced mounting strength. The Bite Angler is the perfect combination of comfort, smart and innovative design, and great value. It's at home across a variety of waterways, including small lakes and rivers, ponds, streams, and inshore saltwater.

**Length: 350.5 cm/11'6" | Width: 91.4 cm/36" | Weight: 33.6 kg/74 lb | Colors: Earth . Forest . Rockfish**

[JACKSONKAYAK.COM](http://JACKSONKAYAK.COM)

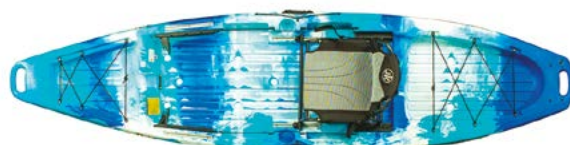

### JACKSON KAYAK - BITE REC

Featuring the same hull as our Bite Angler and performing to the same high standards of paddling and standability Jackson is known for, the Jackson Bite is an affordable kayak that doesn't compromise in hull quality, performance, gear management, or comfort. The Bite is at home across a diverse variety of waterways, including small lakes and rivers, ponds, streams, and inshore saltwater paddling.

**Length: 350.5 cm/11'6" | Width: 91.4 cm/36" | Weight: 33.6 kg/74 lb**

## K1 COMPOSITE

MADE FROM A COMBINATION OF CARBON, KEVLAR AND FIBERGLASS, THEY ARE LIGHTER THAN THEIR PLASTIC COUNTERPARTS BUT LESS DURABLE IN THE EVENT OF IMPACT.

### LETTMANN - AKAROA MV EXPEDITION PLUS

The Akaroa might be "not exactly the fastest 525er Lettmann ever created," but that doesn't bother us. The Akaroa has other strengths – it's our most directionally stable kayak with excellent control and agility. No matter whether they come frontwards or astern, the Akaroa masters wind and waves easily and manages (tide) currents without making too much use of the skeg or rudder. To achieve this, we reduced the hull's volume and gave it some more reflexed profile and placed the cockpit slightly more towards the rear. Don't worry, you won't struggle to keep up on tour as the cruising speed still is decent.

**Length: 525 cm/17'3" | Width: 57.5 cm/22.6" | Volume: 310 L/82 G**

[LETTMANN.DE](http://LETTMANN.DE)

### NORSE KAYAKS - FREYJA

The Freyja is designed with the smaller paddler in mind, with its 550 cm length and 55 cm width. It has a v-shaped hull which contributes to the Freyja's fast speed and great tracking. The accessible day hatch behind the cockpit gives access to one out of three bulkheads. All hatches are watertight and easy to open in all conditions. The comfortable seat with an adjustable backrest makes staying out on the waters for hours a real pleasure.

**Length: 550 cm/18' | Width: 55 cm | Weight: 24 kg/53 lb | Max. Cap.: 95 kg/109 lb | Material: Fibreglass, Carbon | Colors: Red White . Black White**

[NORSEKAYAKS.COM](http://NORSEKAYAKS.COM)

### P&H SEA KAYAKS - VOLAN

The Volan is built specifically for those who want to make the most of day and weekend trips; tracking straight when flat, but swinging round effortlessly when on edge or carving into a turn, the Volan has comfortable performance for both the journey and any play spots you find on the way. The short, 16' length provides ample hull speed for most adventures, and helps keep weight to an absolute minimum for nimble performance and easy handling.

**Length: 489 cm/16'0" | Width: 58 cm/22.8" | Weight: 19 kg/41.8 lb | Max. Cap.: 120 kg/264.5 lb | Material: Kevlar/Carbon Infusion | Colors: Custom | Sizes: 158 . 160**

[PHSEAKAYAKS.COM](http://PHSEAKAYAKS.COM)

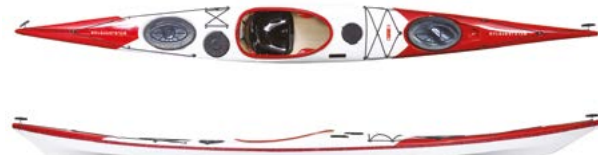

### NORSE KAYAKS - BYLGJA

This is a hardchine kayak with a firm skeg. The Bylgja is extremely good at tracking in all conditions, and turns on a dime. As all our sea kayaks, the Bylgja's hull is reinforced with aramid all the way through to the keel. But in addition to this the chines are also reinforced to take a beating. This kayak has three bulkheads, and as for storage room; two dayhatches.

**Length: 520 cm/17' | Width: 55 cm | Weight: 24 kg/53 lb | Max. Cap.: 140 kg/309 lb | Material: Fibreglass, Carbon | Colors: Red White . Black White**

[NORSEKAYAKS.COM](http://NORSEKAYAKS.COM)

### PRIJON - PRILITE MARLIN

A fast, well-tracking and lightweight sea kayak! It's elegant, stretched lines make it an ideal boat for travelling. Safe forward gliding, fast changes in direction using the edges of the boat, everything can be done in a safe and precise manner. Flat angles on the lateral areas make the boat easy manageable and provide an optimum of stability. The colors green, orange and mother-of-pearl-white are especially eye-catching due to their metallic effect. PriLite boats are approx. 20% lighter than comparable kayaks made of HTP. At the same time there is a clear advantage regarding stability compared to GFK or Carbon/Aramid.

**Length: 530 cm/17.3" | Width: 58 cm/22.8" | Weight: 23 kg/50.7 lb**

[PRIJON.COM](http://PRIJON.COM)

# K1 PLASTIC

HEAVIER THAN COMPOSITE BOATS, BUT OFFERING MORE VARIED USE AND MORE DURABILITY IN THE EVENT OF IMPACT.

## ROTO ATTIVO - BURAN 520

The Buran 520 is a pure breed Sea kayak: Long and narrow, perfect for covering long distances with speed. It has plenty of storage areas for long trips and a rudder for quick turning. It comes in two different trim levels, weekend and expedition.

**Length: 520 cm/17' | Width: 93 cm/36.61" | Weight: 33 kg/72.7 lb | Material: HDPE | Colors: Dark Green . Lime/Green . Orange/Yellow . Mango Orange . Blue/White . Lime**

[ROTOATTIVO.EU](https://ROTOATTIVO.EU)

NEW  
2023

## PRIJON - LAVIE

The Lavie is easy to maneuver by using your weight, while the cleverly shaped rocker profile in combination with its speed-optimized bottom makes it fast and movable at the same time. A modern and functional design combined with compact measurements reduce its overall weight to a very low 25 kg. The low deck minimizes influence by wind and a very low rear deck guarantees a maximum mobility of the paddler. Completely equipped with premium parts, the Lavie is ready for coming touring and seakayak adventures. An ergonomic cockpit layout provides for optimized contact and efficiency while paddling. The hull of the Lavie is made of our indestructible HTP.

**Length: 465 cm/15.25' | Width: 56 cm/22" | Weight: 25 kg/55.1 lb | Max.Cap.: 110 kg/242.5 lb | Material: HTP | Colors: Red . Yellow . Bright Green | Sizes: 1**

## DAG - MEZZO LUXE

The MEZZO LUXE is a compact, comfortable and manageable touring kayak. Its rear storage compartment allows you to carry everything you need for a few hours to 2 days.

**Length: 360 cm/11'8" | Width: 67 cm/22" | Depth: 37 cm/14.5" | Weight: 25 kg/55 lb | Cockpit Size: 92 x 47 / 36.2" x 18.5" | Max. Cap.: 130 kg/286 lb | Material: HDPE**

[DAG-KAYAK.COM](https://DAG-KAYAK.COM)

## RPI KAYAK - JOURNEY

The Shoreline is a fast, stable, and easy to steer kayak, ideal for small and medium-sized users. Its reputation is well established. Try it, and you'll see why.

**Length: 480 cm/15'8" | Width: 56 cm/22" | Weight: 26 kg/57.3 lb**

[POLYROTGROUP.COM](https://POLYROTGROUP.COM)

## DAGGER KAYAKS - STRATOS E 14.5

The Stratos is a high performance ocean tourer, optimised for the paddler who wants an easy ride. Smooth and forgiving for the new paddler to learn, with performance characteristics that experts will relish, the Stratos has been developed for stability and predictability even in rough or moving water. Available in two sizes, large and small. Outfitted with Contour Lite seating.

**Length (L): 442 cm/14'5" | Width: 64/25.2" | Weight: 25 kg/55.1 lb | Material: Super-Linear High-Density Polyethylene | Sizes: S . L | Colors: Red, Green, Orange, Blue**

[DAGGER.COM](http://DAGGER.COM)

## P&H SEA KAYAKS - LEO CLX MV

At around 16' in length, and drawing influence from the Scorpio and Virgo, the Leo fits neatly between the two in the P&H range to offer a boat which allows the paddler to explore all avenues of sea kayaking comfortably.

**Length: 484 cm/15.9' | Width: 56 cm/22" | Weight: 27.5 kg/60.6 lb | Max. Cap.: 110 kg/242.5 lb | Sizes: MV . HV**

[PHSEAKAYAKS.COM](http://PHSEAKAYAKS.COM)

## DAG - YSAK HI LUXE

The YSAK is the ideal long distance touring kayak. Its longwaterline ensures for excellent tracking and a comfortable paddle.

**Length: 506 cm/16'6" | Width: 57 cm/22.5" | Depth: 30 cm/12" | Weight: 26 kg/57 lb | Cockpit: 84 x 46 / 32" x 18" | Max. Cap.: 120 kg/265 lb | Material: 3- Layer Polyethelene**

[DAG-KAYAK.COM](http://DAG-KAYAK.COM)

## DAG - TIWOK EVO

Stable, elegant & speedy, the Tiwok evo has improved comfort thanks to the new Hi Class Seat, Backrest and larger cockpit. All size paddlers can now enjoy day trips or excursions on sea, lakes & rivers thanks to this polyvalent kayak. Possibility to install an optional rudder.

**Length: 440 cm/14'4" | Width: 60 cm/23.6" | Depth: 34 cm/13.4" | Weight: 23 kg/51 lb | Max. Cap.: 130 kg/286 lb | Cockpit.: 90 x 45/35.4" x 17.7" | Material: HDPE**

[DAG-KAYAK.COM](http://DAG-KAYAK.COM)

## PRIJON - GRIZZLY

The GRIZZLY is a fast, safe and a great load carrier. Made for long trips with a lot of luggage. It is fast, tracking well and agile on the edges. The GRIZZLY offers a lot of volume, a huge storage space and a very spacious cockpit, which is comfortable especially for taller paddlers. The high volume is also a further safety aspect when touring at sea. A spacious kayak for long trips or big paddlers!

**Length: 518 cm/16.9' | Width: 61 cm/24" | Weight: 29 kg/64 lb**

[PRIJON.COM](http://PRIJON.COM)

## DRAGOROSSO - OASIS 4.30

The Oasis is a very stable and fast sea kayak, easy to use, and very reliable for sea and lake excursions—even multiday trips. It comes standard with an elastic net, two large watertight compartments, a padded adjustable back band, a padded adjustable ergonomic seat, and pedal footrest.

**Length: 430 cm/14'1" | Width: 64 cm/26" | Weight: 20 kg/44 lb | Max. Cap.: 95 kg/209 lb | Material: PE**

[DRAGOROSSO.COM](http://DRAGOROSSO.COM)

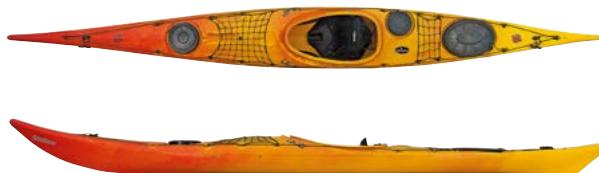

## DRAGOROSSO - LASER 5.15

Ideal for kayaking excursions on the sea and lake. The stability and speed, combined with the widest range of accessories, make it ideal for camping and boat trips lasting several days. It comes standard with front and rear elastic nets, three watertight compartments, padded adjustable anatomical seat, padded backband, pedal footrest, padded adjustable knee braces, and perimetral deckline.

**Length: 515 cm/16'11" | Width: 59 cm/23" | Weight: 24 kg/53 lb | Max. Cap.: 90 kg/198 lb | Material: PE**

[DRAGOROSSO.COM](https://www.dragorosso.com)

## PRIJON - SEATRON GT

A medium to high volume multi-day sea kayak for medium to larger paddlers. The Prijon Seatron 520 GT is a durable quality performance sea kayak for short and long tours that can handle rough conditions and paddle effortlessly on calmer days. Made primarily for extensive open water crossings, surfing waves, and long multiday trips with all you need. It has high stability combined with high maneuverability, especially during rough conditions at sea. It surfs with following waves well as you paddle and is effortless to control.

**Length: 520 cm/17'1" | Width: 58 cm/22.8" | Weight: 29 kg/63.9 lb | Volume: 390 L/86 G | Max. Cap.: 140 kg/308 lb**

[PRIJON.COM](https://www.prijon.com)

## DAG - MIWOK EVO

Miwok is one of the most stylish and elegant sea kayaks. Its speed, stability, and comfort enable you to paddle further for longer.

**Length: 500 cm/16'4" | Width: 60 cm/23.6" | Depth: 35 cm/13.8" | Weight: 25 kg/55.1 lb | Max. Cap.: 140 kg/308 lb | Cockpit.: 79 x 45/31.1" x 17.7" | Material: HDPE**

[DAG-KAYAK.COM](https://www.dag-kayak.com)

# K2

SHARE THE MAGIC OF THE OCEAN WITH A FRIEND—OR PARTNER.

## DAG - BIWOK EVO

The Biwok EVO is focused on performance: its larger cockpits with Hi Class Seats & Backrests offer optimal comfort, great load capacity, speed & stability. It is recommended to use a DRY BAG in the kayak's storage compartments.

**Length: 530 cm/17'4" | Width: 67 cm/26.4" | Depth: 35 cm/13.8" | Weight: 34 kg/49 lb | Max. Cap.: 240 kg/529 lb | Cockpit.: 92 x 47/36.2" x 18.5" | Material: HDPE**

[DAG-KAYAK.COM](https://www.dag-kayak.com)

## PRIJON - POSEIDON

Touring double-seater for open waters and coastal tours. The bow and stern of the POSEIDON possess pronounced keel lines, which ensure better tracking and a pleasant travelling speed. Thanks to the pronounced keels and its width of 68cm it is a very stable kayak. Comes with a comfortable seat-system, suitable for longer distances and is equipped with 3D-thigh braces. It is further equipped with a lot of useful accessories on deck. Both of the waterproof bulkheads offer a lot of storage space and combined with the deckbox an excellent possibility to transport your luggage.

**Length: 518 cm/16.9' | Width: 68 cm/26.7" | Weight: 39 kg/86 lb**

[PRIJON.COM](https://www.prijon.com)

## HIGH END

STABLE DESIGN AND HIGH-END CONSTRUCTION MAKE THESE CANOES PERFECT FOR TOURING ON LAKES AND EASY RIVERS.

### VOGUEUR - TRAPPER 16 GT

"For Adventure and family time". A 16ft canoe designed for several day adventures, with an important loading capacity, and profiled hull offering efficiency and stability. Furthermore it's an excellent family boat when set up with 4 seats.

**Length: 490 cm/16'1 | Width: 88 cm/2'10 | Weight: 23 kg/50.7 lb | Max. Cap.: 400 kg/880 lb | Material: Carbon/Aramid/Glass Infused | Colors: On Demand | Sizes: 16' . 15'**

[VOGUEUR.COM](https://vogueur.com)

### VOGUEUR - MOUCHALAGANE 16 WW&S

A "No-limit Canadian Adventurer"; Built and created for long and harsh expeditions, tested and developed on the wildest sections of Canadian rivers. It's integrated cockpit enables it to be fully decked. The central loading coam allows one to carry up to five 60L barrels for complete autonomy on long expeditions. Furthermore, once locked in, they increase the boats' buoyancy.

**Length: 490 cm/16'1 | Width: 90 cm/2'11 | Weight: 32 kg/70 lb | Max. Cap.: 454 kg/1000 lb | Material: Carbon/Aramid/Glass Infused with Heavy Duty Resin | Colors: on Demand | Sizes: 16'**

[VOGUEUR.COM](https://vogueur.com)

### AMERLITE CANOES - BROOKS 13

Our Brooks 13 is the canoe of choice for all paddlers that want a light, manoeuvrable boat for small rivers. The 13 feet long canoe brings the classic Armerlite performance and manoeuvrability, toughness and best of all, a light weight. The shallow arch hull design increases speed, final stability and manoeuvrability. Adding to that the tried and tested Armerlite material makes no compromise: It combines high toughness and a light weight compared to regular plastic boats.

**Length: 407 cm/13.3' | Width: 89 cm/35" | Weight: 30 kg/66.1 lb**

[AMERLITE-CANOES.COM](https://amerlite-canoes.com)

### GATZ - YOHO 2 WOOD GUNNEL

One of the GATZ classics. An easy going all round performer with great aesthetic beauty. A favourite with beginners and experts alike. Its good all-round performance makes the Yoho 2 an easy to paddle double canoe but it is also a very popular solo canoe, thus highlighting its versatility. When paddled singly, a special spraycover with a larger hole at the front may fitted. This version features a beautiful wooden gunnel and has many seat options. Full composite version as well available.

**Length: 455 cm/14.9' | Width: 80 cm/31.5" | Weight: 19 kg/41.88 lb | Max.Cap.: 320 kg/705 lb**

[GATZ.COM](https://gatz.com)

### GATZ - MOHAWK 470

A canoe with a hull shape close to the ultimate all-rounder. The Mohawk is one of our bestsellers. It is an outstanding choice for a family seeking a canoe with stability, speed and maneuverability and with the capacity for carrying both children and equipment. Same hull with wood gunnel available as Athabasca 470.

**Length: 470 cm/15'4 | Width: 90 cm/35.4" | Weight: 21 kg/46.3 lb | Max.Cap.: 395 kg/870.9 lb**

[GATZ.COM](https://gatz.com)

### GATZ - CANADIAN 475

A Canoe for 2 adults with a child and gear. The Canadian 475 speeds up very fast and then runs easily light and is good manoeuvrable. With a V-shaped hull, the Canadian 475 is ideally suited to the deeper waters and rivers however this canoe can also be paddled on small rivers as well.

**Length: 475 cm/15.6' | Width: 90 cm/35.4" | Weight: 20.5 kg/45.2 lb | Max.Cap.: 390 kg/859.9 lb**

[GATZ.COM](https://gatz.com)

## GATZ - CHEROKEE 527PE

One of the largest polyethylene canoes in the world. This canoe is designed to meet the requirements of long trips and to provide enough carrying capacity to seat 4 adults. The shallow V-hull, in combination with our extremely stiff 3-layer polyethylene, provides an exceptional stiffness to weight ratio for this large canoe. The Cherokee 527PE adds to our range of composite Cherokees and is more suitable for use in arduous conditions or where daily hard wear may be expected. It is the ideal craft for rental operations, schools and groups.

**Length: 527 cm/17.3' | Width: 95 cm/37.4" | Weight: 44 kg/97 lb | Max.Cap.: 490 kg/1028 lb**

[GATZ.COM](http://GATZ.COM)

## GATZ - ONTARIO

A team canoe with 7 seats for up to 10 adults for safe and fast paddling. Despite its size, it is very easy to handle. It just needs one good paddler in the stern. The Ontario is one of the bestselling team canoes in the world. Its usage is in clubs, schools, and youth groups. There is sufficient space to stow equipment for extended trips with this fascinating canoe.

**Length: 700 cm/23' | Width: 130 cm/51.2" | Weight: 100 kg/220.5 lb | Max.Cap.: 1100 kg/2425 lb**

[GATZ.COM](http://GATZ.COM)

## BEAVER CANOES - SCOUT

Lightweight single person canoe, produced in Latvia, by the Beaver Canoe Factory. The composite hull utilizes sandwich construction, strengthening the hull and providing long-term resistance at high loads..

**Length: 330 cm/11' | Width: 80 cm/31.5" | Weight: 15 kg/33 lb**

[CANOEBEAVER.COM](http://CANOEBEAVER.COM)

## BEAVER CANOES - ACTIVE LUX

Beaver: stable, secure, and fast canoes for boating with the family. The Active Lux offers a carrying capacity of 320 kg with a 15 cm freeboard and Beaver's exclusive oak tree finish. The composite hull utilizes sandwich construction, strengthening the hull and providing long-term resistance at high loads.

**Length: 485 cm/16' | Width: 80 cm/31.5" | Weight: 26 kg/57.3 lb**

[CANOEBEAVER.COM](http://CANOEBEAVER.COM)

## BEAVER CANOES - LUX

Lightweight 2 person canoe, produced in Latvia, by the Beaver Canoe Factory. The hull utilizes sandwich construction, strengthening the hull and providing long-term resistance at high loads.

**Length: 505 cm/16.6' | Width: 85 cm/33.5" | Weight: 27 kg/59.5 lb | Max.Cap.: 350 kg/771.6 lb**  
**| Colors: Orange . Green . Red**

## ENTRY LEVEL

STABLE DESIGN AND DURABLE CONSTRUCTION MAKE THESE CANOES PERFECT FOR TOURING ON LAKES AND EASY RIVERS.

### RTM - RIVIERA COMFORT XL

The RIVIERA XL, longer than the classic RIVIERA for more fun to share. It has an additional central bench for increased seating and comfort. The RIVIERA XL welcomes up to four adults, or two adults and four children.

**Length: 500 cm/16'4" | Width: 100 cm/39" | Depth: 37 cm/ 14.5" | Weight: 48 kg/106 lb | Max. Cap.: 350 kg/772 lb | Material: HDPE**

[RTMKAYAKS.COM](http://RTMKAYAKS.COM)

### RTM - RIVIERA COMFORT

The RIVIERA is the ideal boat to discover the rivers with the family. This sturdy and stable boat can be used sitting or kneeling. A must for beginners, it is also recommended for professional use. The RIVIERA Open Canoe is available in a Standard and Comfort version, offering two standard PE backrests on the front and rear seats.

**Length: 464 cm/15'2" | Width: 90 cm/35.4" | Depth: 37 cm/ 14.5" | Weight: 43 kg/95 lb | Max. Cap.: 295 kg/650 lb | Material: HDPE**

[RTMKAYAKS.COM](http://RTMKAYAKS.COM)

### RPI KAYAK - JALTA

A stable, high-performance three-seater canoe with a versatile and practical interior design. The JALTA is at ease in lakes and rivers. Built in single layer PE (48 kg). Also available in three-layer PE (40 kg).

**Length: 464 cm/15'2" | Width: 90 cm/35.4" | Weight: 48 kg/106 lb**

[POLYROTOGROUP.COM](http://POLYROTOGROUP.COM)

### RPI KAYAK - OPT LIGHT

The OPT light is the perfect learning device for children. It is a simple, light, and solid boat: it is perfect to start sailing. Your children will learn the first rudiments of the wonderful world of sailing and the amazing sensation of being carried by the wind. Options for single layer or dual layer (internal foam) construction..

**Length: 250 cm/8'2" | Width: 120 cm/47.2" | Weight: 48 kg/106 lb**

[POLYROTOGROUP.COM](http://POLYROTOGROUP.COM)

### RPI KAYAK - RAYA 13

The RAYA 13 is a fishing and touring canoe designed for use in rivers and/or lakes. Rather versatile, the RAYA 13 can be used as a traditional canoe with oars or as a boat. Three-layer design (PE sandwich) or single-layer design. Possible to use with a 2 hp electric motor so you can focus on fishing or enjoying the scenery.

**Length: 394 cm/13'0" | Width: 108 cm/42.5" | Weight: 42 kg/92.6 lb**

[POLYROTOGROUP.COM](http://POLYROTOGROUP.COM)

## CREEKING

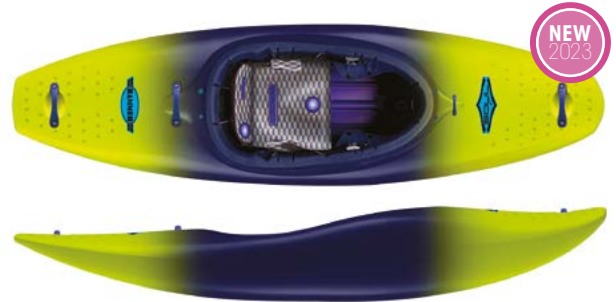

HIGH STABILITY WHITEWATER KAYAK FOR RUNNING RIVERS AND STEEP CREEKS.

### SOUL WATERMAN - HAMMER

The Hammer is an all out, teeth-baring creek boat. While it's more focused on tighter lower volume creeks, true to its namesake, the Hammer will handle even the biggest volume runs. This is a creeker focused on improving the paddling experience for everyone. Modern bow rocker will shoot and skip the Hammer over everything, while a pivotable tail allows you to dip the tail lightly so you can turn it more like the boat you know. This tail also makes getting out of holes much easier, while the stern deck crown keeps you confident that you won't backender. By shortening the length, increasing width, the planing hulled Hammer skims across the water like a skipping stone. The soft planing hull with raised edges means it'll move across the water with familiarity, and lastly, we've packed maximum stability and volume into this highly maneuverable, super responsive and extremely forgiving boat.

**Length: 246 cm/8'1" | Width: 68.5 cm/27" | Volume: 310 L/82 G | Paddler Weight: 65 kg-114 kg/140 lb-250 lb**

[SOULWATERMAN.COM](https://soulwaterman.com)

### JACKSON KAYAK - GNARVANA

Jackson Kayak's Gnarvana takes our favorite features of the top selling Nirvana and adds a whole new level of performance. A super high-rockered bow, significant stern rocker, a wider center point with narrower ends, and a short waterline ensure that you feel high, dry and stable at all times. The float and rocker profile make this creek boat incredibly easy to maneuver and fun to paddle. Whether you are looking to run the hardest whitewater, or make it down your backyard run with ease, the Gnarvana is gonna rock your run. Now available in THREE SIZES!

**Length: 259-282 cm/8'6"-9'3" | Width: 66-71 cm/26-28.25" | Weight: 20.4-23 kg/45-51 lb | Weight Range: 45-109 kg/100-240 lb | Sizes S . M . L**

[JACKSONKAYAK.COM](https://jacksonkayak.com)

### SPADE KAYAKS - ROYAL FLUSH

The Royal Flush is an ultra-dynamic kayak that excels in deep water, but doesn't mind a low water creek run either. If you like to pull the stick and swing the hips, the Royal Flush is your weapon.

**Length: 274 cm/9' | Width: 68 cm/26.8" | Weight: 23 kg/51 lb | Volume: 335 L/74 G**

[SPADEKAYAKS.COM](https://spadekayaks.com)

### ZET - FIVE

ZET Kayaks are proud to introduce the FIVE, the fifth seriously great boat in its lineup. Developed in collaboration with top paddlers, the FIVE has all the latest and greatest kayak features that a serious kayaker could wish for. The FIVE is an aggressive, fast and smooth whitewater boat. It glides like an angel over waves and holes and can accelerate like a demon. The FIVE is a kayak for proactive whitewater paddlers. When kept under control this kayak will reward your efforts with instantaneous reactions.

**Length: 272 cm/9'0" | Width: 67 cm/26.4" | Volume: 350 L/92.5 G | Weight: 21 kg/46.3 lb**

[ZETKAYAK.COM](https://zetkayak.com)

## SPADE KAYAKS - QUEEN OF HEARTS

With a width of 62 cm, a length of 250 cm, and a volume of approx. 245 liters, the Queen Of Hearts brings light paddlers and youngsters between 35 and 65 kg the fun and performance we love in Black Jack and Royal Flush.

**Length: 250 cm/8'2" | Width: 60 cm/23.6" | Weight: 20 kg/44 lb | Volume: 245 L/54 G**

[SPADEKAYAKS.COM](https://spadekayaks.com)

## DAGGER KAYAKS - CODE

Live by your own Code. Dagger's creek kayak has the flare of the Rewind and speed of the Phantom. The planing hull and high rockered bow gives immediate feedback; keeping everything dialled-in and on-line through any rapid. Available in small, medium and large sizes, you will find your perfect fit with comfort and safety as a given – thanks to customisable class-leading Contour Ergo outfitting.

**Length: (M) 267 cm/8'9" | Width: (M) 68 cm/27" | Weight: (M) 22 kg | Max. Cap.: (M) 100 kg/220 lb | Sizes: S . M . L | Material: Super-Linear High-Density Polyethylene | Colors: Red, Borealis, Cosmos**

[DAGGER.COM](https://dagger.com)

## SPADE KAYAKS - BLACK JACK

The Black Jack is a modern whitewater kayak that perfectly bridges the gap between a river runner and a creek boat. High volume and high rocker give it the dry line ability and buoyancy that a full-on creekboat needs.

**Length: 256 cm/8'5" | Width: 66 cm/26" | Weight: 20 kg/44 lb | Volume: 285 L/63 G**

[SPADEKAYAKS.COM](https://spadekayaks.com)

## DRAGROSSI - DRX

Designed by the team of DragoRossi paddlers, the DRX is the brand new torrent kayak of the Italian company; ideal for paddlers in the weight range between 70 and 90 kg. Easy to use, it is suitable for both expert canoeists and beginners. Ideal for rivers with large volumes but also for high-slope creeks, it is incredibly fast and agile. Equipped with: padded thigh support, ergo safe footrest, adjustable padded seat, adjustable padded backrest, front and rear pillars, four handles, and drain plug.

**Length: 274 cm/9'0" | Width: 69 cm/2'3" | Weight: 22 kg/48 lb | Max. Cap.: 95 kg/209 lb | Material: PE**

[DRAGROSSI.COM](https://dragorossi.com)

## ZET - CROSS

After much anticipation, the team here at ZET are excited to present our latest and most innovative creek boat yet, The CROSS. A true all-river kayak The CROSS is a sporty, stable and easy to manoeuvre kayak. Its long, wide rocker has been designed to move easily through waves and holes and boof beautifully even at low speeds. The flat hull and edges of the CROSS make it highly responsive. It accelerates quickly and holds its line perfectly. The CROSS carves easily and has no 'catchy features' making it the perfect kayak for any whitewater purpose and environment. The CROSS is designed for paddlers in the weight range 70 to 100 kg. Its incredible stability makes it suitable not only for expert kayakers, but also for beginner and intermediate paddlers wanting to improve their skills.

**Length: 274 cm/9'0" | Width: 63 cm/24.8" | Volume: 233 L/61.55 G | Weight: 18.5 kg/40.8 lb**

[ZETKAYAK.COM](https://zetkayak.com)

## SOUL WATERMAN - CHAOS MONKEY

If you're that guy that just wants to plug a whole bunch of really gnarly stuff, this is your boat. Make sense of the chaos out there. Most of the volume is centered around the paddler, while the peaked "cathedral" deck in the bow and stern decks with the extreme nose rocker rides this boat high and dry. The hull of this boat is graceful in its lines and sweep. It's designed to flow with the water, not fight it. In just two strokes, you'll accelerate to cruising speed, and that's all you need to make this boat function.

**Length: 290 cm/9'6" | Width: 67 cm/26.5" | Volume: 343 L/91 G | Paddler Weight: 64-105 kg/140 lb-230 lb**

[SOULWATERMAN.COM](http://SOULWATERMAN.COM)

## JACKSON KAYAK - ZEN 3.0

The Zen platform has been used by leading whitewater schools worldwide as an amazing teaching tool. The Zen 3.0 stays on top of the water, and the bow lifts over and clears things better than any previous design. It is a dry, confidence-inspiring ride, especially when the river gets steep. The hull combines an amazingly fun zippy feel with carving, gliding, and surfing while adding a new level of stability to the platform. The ease of staying right side up is incredible, while the confidence it provides is welcome on any river. It boofs, surfs, and plugs.... versatility doesn't mean compromise!

**Length: 246.4 cm/8'1" | Width: 64 cm/25.2" | Weight: 20 kg/44 lb | Colors: Lime . Red . Royale**

[JACKSONKAYAK.COM](http://JACKSONKAYAK.COM)

## CROSSOVER

WITH PLENTY OF STORAGE AND EASY ACCESS TO GEAR, THESE BOATS ARE PERFECT FOR MULTI-DAYS ON ANYTHING FROM LAKES TO THE GRAND CANYON.

## PRIJON - MUNGA

The first ever Crossover Kayak from Prijon with a skeg! Your allround Prijon-kayak! Made for a relaxed trip on a lake or whitewater up to class 3. This kayak enables you to experience the whole range of paddling! It is shaped like a whitewater-kayak, with touring features. This makes it easy to paddle and thanks to its length of nearly 3m incredibly fast. As the bottom is shaped like a whitewater kayak, the Munga is very agile and versatile. Made for multi-day trips through canyons, on small rivers and across calm lakes!

**Length: 297 cm/9'7" | Width: 67 cm/26.3" | Weight: 24 kg/53 lb**

[PRIJON.COM](http://PRIJON.COM)

## K2

SHARE THE MAGIC OF THE RIVER WITH A FRIEND—OR PARTNER.

## SOUL WATERMAN - TERRIBLE TWO

Our most successful kayak. The Terrible Two is the go-to design to introduce your kids to kayaking. As small and light as a creekboat, it can be carried and loaded solo, and it also paddles like a single-seater kayak, so you're in total control all the time. The front cockpit is kid-sized and close enough to you that you can reach your kid at all times—for comfort and safety. The front seat adjusts in height so you can set it according to your kid's size, and lastly, a splash shield keeps waves out of their face.

**Length: 287cm/9'5" | Width: 68.5 cm/27" | Volume: 371 L/98 G | Max Combined Weight: 140 kg/300 lb**

[SOULWATERMAN.COM](http://SOULWATERMAN.COM)

## PRIJON - 2B

With our 2B kayaking becomes a team-sport! Doesn't matter if you want to explore the whitewater with your best friend, family or an unexperienced paddler – with this whitewater tandem paddling is double fun! Another ideal terrain for the 2B are kayak schools and rental stations. The flat bottom combined with the firm edges and the heavy rocker guarantee its suitability for whitewater. A new way to paddle whitewater in twos!

**Length: 372 cm/12.2' | Width: 69 cm/27.1" | Weight: 37 kg/81.6 lb**

## HALF SLICE

PLAYFUL RIVER RUNNERS THAT DO IT ALL, FOR MAXIMUM FUN ON EVERY CLASS OF WHITEWATER.

### SOUL WATERMAN - BOOSTER

A decade ago, an entire class of boat simply disappeared: the playful river runner. These were truly great boats because they bridged that gap between a hard core creek boat, and a play boat. They could run fairly hard rapids, while remaining entertaining and easy to paddle, and muck about in. With a planing hull, playful handling, but in a format that could run rivers well, the Booster was the choice of instructional centres, beginners paddlers, and even advanced and expert paddlers looking to mix it up. The new Booster takes the performance of the original, and puts it squarely on a platform that is comfortable, fast and loose, boofs like a charm, is super forgiving in even the most unpredictable waters, and all without the comparative sluggishness of creek boats. If you're looking for something more interesting than a full creek boat without going to a half slice, the Booster has you covered

**Length: 222 cm/ 7'3 | Width: 65 cm/25.6" | Volume: 222 L/59 G**

[SOULWATERMAN.COM](https://soulwaterman.com)

### SOUL WATERMAN - FANATIX

We brought some of the greats into the design process, including 12x world champion Jon Lugbill, and 2x Olympian Larry Norman. With such a talent pool, we were sure that we'd be able to create something truly magic. It's fast for its length, easy to paddle down steep stuff, and has slalom performance. Indeed this was the goal. A modern take on slalom type performance, mixed with the fun and ease of a playful half-slice. It's hard to believe that the Fanatix is a hard core river runner, given how amazingly fun it is to just paddle on any kind of water. A C1 turns differently than a K1: you need to be able to lift the bow with a draw or a crossbow. This is a limitation of virtually all C1 "conversions". If you want the boat to paddle like a C1, you need to design it as a C1.

**Length: 285 cm/9'4 | Width: 68 cm/26.8" | Volume: 287 L/76 G**

[SOULWATERMAN.COM](https://soulwaterman.com)

### ZET - NINJA

If you're looking for one boat that does it all, then look no further than the Zet Ninja. Our most versatile creek boat yet. The brain child of extreme paddler Honza Choutka, the Zet Ninja is the boat to use when the rivers are steep and technical, when you want to win races or when you just want to have some fun throwing it down while mashing through rowdy bits in complete control.

**Length: 274 cm/9'0 | Width: 68 cm/26.7" | Weight: 22 kg/48.5 lb | Max.Cap.: 110 kg/242.5 lb**

[ZETKAYAK.COM](https://zetkayak.com)

### JACKSON KAYAK - ANTIX 2.0

If you were heading to a new river with no beta on what to expect and could only take one boat; you would take the Antix 2.0. After three years paddling the original Antix, we were all reminded of how much FUN whitewater is! With the masterful reshaping of a full planing hull, the Antix 2.0 is substantially faster, surfs like no other, stays on the surface, and squirts with less effort than ever. It runs rivers well, creeks well, and offers the best play in its class! It's the one boat that rules them all for all-day fun on the water.

**Length: 231.14 cm/7'7 | Width: 63.4 cm/25" | Weight: 15.4 kg/34 lb | Colors: Lime . Red . Royale**

[JACKSONKAYAK.COM](https://jacksonkayak.com)

### SPADE KAYAKS - BLISS

Our new downriver freeride machine! Leave no rock unplatted, no wave unsurfed, and no eddy-line unsquirted. The Bliss will take the fun on your favorite play run to a new level. A length of 245 cm and a planing hull mean it's perfectly suited for playful whitewater and spicing up your runs with freestyle moves. The bow rocker will keep your nose dry, and a spacious cockpit will enable you to sit comfortably for hours on the river. It features five handles, a solid footrest, and a full-sized cockpit for safety and easy exit. Quote Matze: "This is what I want to take to the Zambezi!"

**Length: 245 cm/8' | Width: 65 cm/25.6" | Weight: 20 kg/44 lb | Volume: 235 L/52 G**

[SPADEKAYAKS.COM](https://spadekayaks.com)

## PYRANHA - RIPPER M

The Ripper 2 has more bow rocker for a drier ride and drier surfs, a slightly wider hull to help you skip further out of more features, and a lower volume tail with softer sidewalls to make the tail easier to sink, whether you're looking to get vertical or lift the bow up and over a feature.

**Length: 274 cm/8'11" | Width: 62 cm/24.4" | Weight: 20 kg/44 lb | Max. Cap.: 90 kg/198.4 lb**  
**| Material: MZ3 (HDPE) | Sizes: S . M . L**

[PYRANHA.COM](http://pyranha.com)

## DAGGER KAYAKS - REWIND ACTION+

The ultimate downriver playboat for paddlers of all abilities, the Rewind out delivers on what boaters need from a modern One-Boat kayak – piercing river running capabilities, speed and an excellent play platform – bringing new tricks to any run. Including Daggers coveted Contour Ergo outfitting, roto step out wall and volume adjustable bulkhead to create a fully secure and personalisable rider set-up.

**Length: 267 cm/8'9" | Width: 65 cm/25.5" | Volume: 249 L/66 G | Max. Cap.: 100 kg/220 lb**  
**Sizes: SM . MD . LG | Material: Super-Linear High-Density Polyethylene | Colours: Red,**

[DAGGER.COM](http://dagger.com)

## LETTMANN - MACHETE 65

As one of many half-slice kayaks, we wanted to make sure that there was something about our Machete that sticks out. And well, we're proud to say there's no half-slice as uncompromising as ours. We went with an incomparable rocker profile which allows the Machete to emerge in an extremely controlled manner. At the same time the tail is more slicey enabling you to pirouette for hours.

**Length: 260 cm/8.5' | Width: 63 cm/24.8" | Weight: 19,5 kg/43 lb | Max. Cap.: 100 kg/220 lb**  
**| Material: HD-PE | Colors: Red . Yellow . Orange . Sky . Magenta . Yellow-Red . Magenta-Sky . Black-Sky . Sky-Blue . Yellow-Lime | Sizes: 65 & 85**

[LETTMANN.DE](http://lettmann.de)

## SPADE KAYAKS - JOKER

If you like to charge through pushy waves and across boiling eddy lines at the speed of a barracuda, the Joker is for you. 274 cm long, with an optimized waterline and smooth but pronounced bow rocker, the Joker takes care of your need for speed while retaining maneuverability and precision. Turning on a dime when loading the stern is a breeze and pirouetting along eddy lines might become your new normal. A slightly narrower platform than the Bliss, but if you catch the right wave – oh boy! It features five handles, a solid footrest, and a full-sized cockpit for safety and easy exit.

**Length: 274 cm/9' | Width: 65 cm/25.6" | Weight: 21 kg/46 lb | Volume: 260 L/57 G**

[SPADEKAYAKS.COM](http://spadekayaks.com)

## PRIJON - PIKE

A river play kayak with an enormous fun factor. A fast and agile shape combines the dynamics of a river runner with the safety of a creeker for playing, cruising, and creaking in one boat. It has enough rocker and volume to climb up over big holes, a sporty stern, and a planing hull for when you find an inviting wave. The Pike accelerates rapidly, reaches speed with just a few strokes, can be paddled on a line and/or turned on the spot. In, through, and out of eddies, surfing and carving a pleasure.

**Length: 273 cm/9' | Width: 61 cm/24" | Weight: 20 kg/44 lb | Volume: 250 L/66 G | Max. Cap.: 90 kg/198.4 lb**

[PRIJON.COM](http://prijon.com)

## DRAGOROSSO - KUSH

The Kush is DragoRossi's new river runner. Ideal for paddlers in the weight range between 60 and 85 kg. Easy to use, it is suitable for both expert canoeists and beginners. Perfect for river running, it's ideal for rivers with large volumes but also for creeks; it is incredibly fast and agile. Equipped with: padded thigh support, ergo safe footrest, adjustable padded seat, adjustable padded backrest, front and rear pillars, two carrying handles, and drain plug.

**Length: 270 cm/8'10" | Width: 66 cm/26" | Weight: 21 kg/46 lb | Max. Cap.: 85 kg/187 lb**  
**Material: PE**

[DRAGOROSSO.COM](http://dragorossi.com)

## KAYAK CROSS

HALF SLICE BOATS DESIGNED TO COMPETE AT KAYAK CROSS EVENTS.

### SPADE KAYAKS - BARRACUDA

The new Barracuda is super fast and super fun to paddle. And yes, it's ready for the 2024 Kayakcross Olympics in Paris! But not only for the Olympics: It is also a fun half slice for your favourite river. With its optimised waterline and smooth but pronounced bow rocker the Barracuda will take care of your need for speed while retaining maneuverability and precision of a slalom boat. Maybe put on some swimming goggles to protect your eyes from the wind in your face!

**Length: 274 cm/9' | Width: 63 cm/24.8" | Weight: 18 kg/39.7 lb | Volume: 217 L/57.3 G**

[SPADEKAYAKS.COM](https://spadekayaks.com)

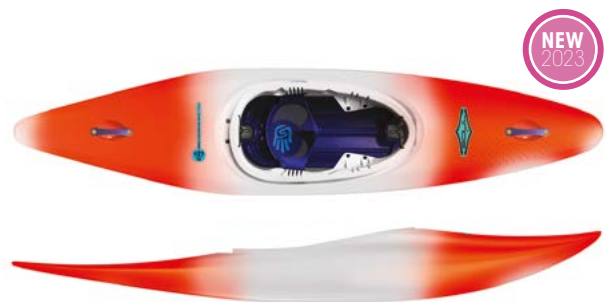

### SOUL WATERMAN - PARTICLE ACCELERATOR

It was only natural that Soul should create a boat using our wealth of experience and expertise to design a racer for the 2024 Olympics. The Particle Accelerator skips out of landings efficiently with a scooped out concave in the bow that creates lift, while the deck is covered in small golf ball like "phasers" that break up surface tension. The tail will pivot with barely a paddle stroke, so you can stuff the gates pivoting inside of your competitors effortlessly. Reduced bow mass keeps swing weight to a minimum, so less energy is required to turn the boat, or accelerate it. Testing has also shown this to be a very agile and fun river runner. It'll surf any wave you can find, and squirt every eddy on the way down, making this one heck of a fun boat to paddle, even when you're not racing for gold.

**Length: 273 cm/8'11" | Width: 64 cm/25" | Volume: 225 L/59 G | Paddler Weight: 65 kg-85 kg/140 lb-190 lb**

[SOULWATERMAN.COM](https://soulwaterman.com)

### ZET - CHILI

Simple yet tasteful, The Zet CHILI has been flavoured for fun. Combining the elegance of a modern slalom boat with the playfulness of a river runner. The Zet CHILI has the right amount of ingredients for all levels of paddlers to enjoy. It has a fast, agile hull and a long smooth rocker which will make surfing waves and gliding through holes a breeze. Sporty and nimble, it's flirty, flat stern is guaranteed to spice up your eddy turns and add zest to your stern squirts and rock splats. The versatility of the ZET CHILI makes it the go-to choice for paddlers seeking to unlock the fun potential in their river runs. After all, why just paddle a river when you can play in it too?

**Length: 270 cm/9'0" | Width: 65 cm/25.6" | Volume: 300 L/79.25 G | Weight: 20 kg/44 lb**

[ZETKAYAK.COM](https://zetkayak.com)

### PYRANHA - RIPPER-R EVO 75

With Extreme Slalom now having a foothold in the 2024 Olympic Games, Pyranha have worked closely with NGBs and leading athletes on an evolution of the Ripper design specifically focused on maximum performance in Extreme Slalom; the Rip-R Evo. This boat is narrower, sharper, and faster edge to edge for precisely placed speed where and when it counts. You'll undoubtedly find yourself smiling as you're blazing past the competition, too.

**Length: 271 cm/8.9' | Width: 61.5 cm/24.2" | Weight: 18 kg/39.7 lb | Sizes: S . M . L**

[PYRANHA.COM](https://pyranha.com)

### SOUL WATERMAN - FIREFOX

Designed with 10-time world champion Richard Fox, the Firefox is the definitive plastic slalom kayak. Rather than adhering dogmatically to ICF design regulations, we focused on making a plastic boat that is naturally heavier but stronger but still paddles like a composite boat. We widened the center, increased the center volume, shortened the length, and increased the rocker.

**Length: 298 cm/9'11" | Width: 63 cm/24.8" | Volume: 240 L/64 G | Paddler Weight: 55 kg-95 kg/120 lb-210 lb**

[SOULWATERMAN.COM](https://soulwaterman.com)

@PyranhaKayaks

PYRANHA.COM

# The Burn III Returns

Over the years, the Burn has become a staple of clubs, centres, and coaches, being a highly versatile platform, which supports paddler development and enables clear skills demonstrations, whilst still inspiring confidence. We're delighted to be in a position now to offer the Burn III in Connect outfitting at a lower price point for the benefit of these paddler groups.

Available in M and L sizes.

## Compact. Light. Reliable.

The Ion is both a more manageable and affordable Fusion, as well as a Master TG for the modern era.

Available now in S/M and M/L sizes, with the option of a full plate footrest.

## PLAYBOATS

OFFERING A BIT MORE VOLUME AND STABILITY THAN A FREESTYLE BOAT, WHILE STILL ALLOWING THE PADDLER PLAY THEIR WAY.

### PYRANHA - FIRECRACKER S/M

The Firecracker is a compact half-slice to whip into every micro-eddy, snap onto every wave, and get vertical absolutely everywhere – no matter who you are, you'll be able to throw this around, sky-gaze, and have the comfort and confidence to nail that new move.

**Length: 241 cm/7.9' | Width: 67 cm/26.4" | Weight: TBC | Sizes: S/M . M/L**

[PYRANHA.COM](https://pyranha.com)

### SPADE KAYAKS - STARFIRE

The Starfire is the little brother of the Bliss. So again: leave no rock unsplatted, no wave unsurfed, and no eddy-line unsquirted. For bigger paddlers it works as a playboat, smaller paddlers will get a pure freeride machine: But don't be afraid, it's an easy to paddle sit-in-have-fun kayak, which will bring a smile to your face immediately you put it on the water.

**Length: 245 cm/8' | Width: 62 cm/24.4" | Weight: 17 kg/37.5 lb | Volume: 205 L/54 G**

[SPADEKAYAKS.COM](https://spadekayaks.com)

### SOUL WATERMAN - DOMINATRIX

We took the F Bomb, paddled it back with the old Dominatrix 47, and then made some modifications to the boat to bring you the new Dominatrix 52. We've increased rocker so it fits better into smaller river waves, and took a little volume out the bow at the shin area, to bring you the ultimate hole playing, wave surfing, eddyline crushing, rock splatting play machine. Looser and faster than the original Dominatrix, and more retentive in holes, combined with modern ergonomics and comfort, and two outfitting options (Super Comfy and Power Seat) mean you'll be as comfortable as a Doberman basking on a sunny couch as you go off on a smear campaign down your favorite run..

**Length: 232 cm/7'6" | Width: 63.5 cm/25" | Volume: 200 L/52 G**

[SOULWATERMAN.COM](https://soulwaterman.com)

### RPI KAYAK - SIBIA

An excellent tool for the initiation to playboating. It is a versatile and forgiving boat that allows for fast progression in whitewater.

**Length: 263 cm/8'6" | Width: 59 cm/23.2" | Weight: 14 kg/31 lb**

[POLYROTOGROUP.COM](https://polyrotogroup.com)

### PYRANHA - OZONE M

Pyranha's long-awaited return to the river-running playboat market!

The DNA of the Ozone flows from models such as the ProZone, InaZone, and Z.One; unlock mid-rapid play spots, throw some shapes on an eddy line, and just generally enjoy every moment on the water.

**Length: 226 cm/7'5" | Width: 63.5 cm/25" | Weight: 15 kg/33 lb | Max. Cap.: 90 kg/198.4 lb | Sizes: S . M . L**

[PYRANHA.COM](https://pyranha.com)

## DAGGER KAYAKS - NOVA/ SUPERNOVA

Dagger turns back the clock to a time when paddling was play and playing was paddling. Loose on the waves, wild in the rapids and yet freakishly comfortable. Inspired by the full-slice models of the late 90s and brought up to date with modern features only Dagger can bring, the SuperNova opens up the realm of play to paddlers from small to large. Slice, surf and spin like never before, wherever there's water.

**Super Nova Length: 232 cm/7.6' | Width: 68.5 cm/27" | Weight: 15.4 kg/34 lb | Max.Cap.: 100 kg/220.5 lb | Nova Length: 220 cm/7.2' | Width: 63.5 cm/25" | Weight: 14.5 kg/32 lb | Max.Cap.: 78 kg/172 lb**

[DAGGER.COM](http://DAGGER.COM)

## SOUL WATERMAN - GLIDE

GLIDE: the boat that changed the rules because it was so advanced, it was obviously going to sweep the 1997 world freestyle championships. The new Glide changes your perception of what a river running, playful and exciting kayak should look like and paddle. It's going to change the rules you've imposed on. This is not a half slice. It's not a full slice. It's a 2/3 slice that's as easy to handle as a half slice and as exciting as a full slice.

**Length: 235 cm/7'9" | Width: 68 cm/26.8" | Volume: 249 L/66 G | Paddler Weight: 72 kg-108 kg/160 lb-240 lb**

## FREESTYLE

SHORT BOATS ALLOWING PADDLERS TO SEND TRICKS IN HOLES AND WAVES

### JACKSON KAYAK - ROCKSTAR V

Jackson Kayak is proud to continue our legacy of making the best playboats in the World with the Rockstar V! The Rockstar V's goal was to make the best boat for every wave and hole on the planet. We combined the best qualities of our favorite older playboats into a sweet new shape that's a game-changer. The Rockstar V makes it easier to have more fun in all kinds of play environments: waves, holes, flatwater, and downriver are all easier and giggle-inducing. Whether you're just learning to get vertical or hoping to WIN the next World Championships, this is the boat.

**Length (M): 172.7 cm/5'8" | Width: 66.35 cm/26.1" | Height: 37.8 cm/14.8" | Volume: 223 L/ 59 G | Weight: 13.1 kg/29 lb**

[JACKSONKAYAK.COM](http://JACKSONKAYAK.COM)

### JACKSON KAYAK - ROCKSTAR XS

Designed for our smaller freestylers, the Rockstar XS is a scaled-down version of our 2016 Rockstar series. Featuring one of the most user-friendly designs, the Rockstar XS falls between our Shooting Star and the smallest Rockstar, filling the gap for those outgrowing their kid kayak or simply needing a smaller ride. The lower volume and lighter weight of the XS models makes it much easier for our lighter paddlers to throw around.

**Length: 157.5 cm/5'2" | Width: 60.3 cm/23.75" | Weight: 10.4 kg/23lb | Weight Range: 32-59 kg/70-130 lb**

[JACKSONKAYAK.COM](http://JACKSONKAYAK.COM)

### JACKSON KAYAK - MONSTAR

The Monstar is an XL-sized playboat scaled-up from our popular 2010 All Star design. Given the surge of enthusiasm for playboating, and Jackson's commitment to accessibility, we wanted to give folks between 210 - 300 pounds access to our 73 gallon playboat. The extra volume will give you a high ride for catching waves and the pop you need for loops, space godzillas and more! Think you don't fit in a playboat? Think again!

**Length: 190.5 cm/6'3" | Width: 71 cm/28" | Weight: 16.7 kg/37 lb**

[JACKSONKAYAK.COM](http://JACKSONKAYAK.COM)

## DAG - SQUALY

The SQUALY is a school kayak, allowing the practice of kayak activities from a young age. It is adapted to young paddlers, it facilitates the acquisition of kayaking technique for fun and safe navigation in calm water and also in rivers. (Max Class 2/3). The removable keel/drift is an ideal tool, allowing young paddlers to concentrate on propulsion and not on maintaining direction.

**Length: 223 cm/7'32" | Width: 57 cm/22.4" | Depth: 30.5 cm/21.8" | Weight: 13 kg/29 lb | Max. Cap.: 60 kg/132.3 lb | Material: HDPE**

[DAG-KAYAK.COM](http://DAG-KAYAK.COM)

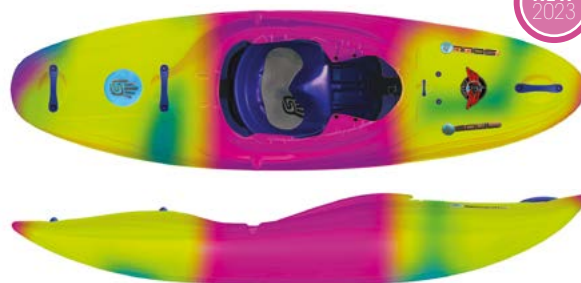

NEW  
2023

## SOUL WATERMAN - SUPERFLY

To call this great new design a kids creek boat is misleading. Really, it's a small person river runner that's well adapted for creeking, designed with the latest most progressive creek boat ideas, combined with a planing hull, in a package that's downsized Proportional to its length, it has some of the most progressive nose rocker so it'll skip over anything, even when you mess up. Slightly reduced volume in the tips stops it being knocked about by waves and funny water, so it's easier to handle, while the generous centre volume keeps you high and dry. A little extra width on a flat hull gives lighter paddlers the most stable platform of this size on the market, so you can paddle with confidence, and push yourself, all backed up with a planing hull that will still surf and play, and drive effortlessly into eddies.

**Length: 210 cm/6'10" | Width: 61 cm/24" | Volume: 210 L/55 G**

[SOULWATERMAN.COM](http://SOULWATERMAN.COM)

NEW  
2023

## VAGABOND KAYAKS - KULU

This is the kayak that turns children into whitewater addicts. The Kulu's ability to handle technical rapids, while being unbelievably easy-to-roll, makes it the perfect kayak to get children into paddling whitewater and to advance their river running speed. The Kulu also has great playability, and it carries enough speed on flatwater to make it easy for children to keep up with adults on longer trips.

**Length: 210 cm/6'10" | Width: 60 cm/23.5" | Height: 30 cm/12" | Weight: 13kg/28.7 lb | Volume: 165 L/43.5 G | Cockpit Dimensions: 77 x 44 cm/30.5" x 17.5"**

[VAGABONDKAYAK.COM](http://VAGABONDKAYAK.COM)

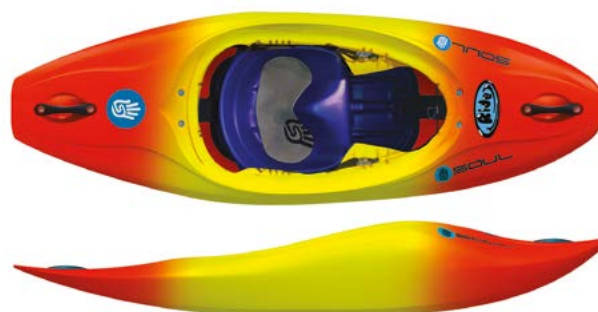

NEW  
2023

## SOUL WATERMAN - RIDE

The Ride is inspired by the revolutionary Glide, but it is not just a small Glide. Its unique design is designed specifically for kids and their needs. It is the ultimate river running play machine. It's not a half slice, but it's not a full slice either. Kids love to play, to surf, to spin. They want to experiment with squirting, so we've made this kayak ultra-easy to squirt. But they also want a forgiving kayak that will let them challenge themselves in harder rapids. Well, we've done that too.

**Length: 190 cm/6'3" | Width: 58 cm/23" | Volume 150 L/39 G | Paddler Weight: 31 kg-59 kg/70 lb-130 lb**

[SOULWATERMAN.COM](http://SOULWATERMAN.COM)

## SOUL WATERMAN - MINI MONKEY

The Mini Monkey is the natural step up for kids who've grown up in the Mini Me, and are ready to take their paddling to the next level. It is equally the perfect choice for getting kids in the 8-12yr old range into paddling as their first beginner boat. The focus has been on ease, in every way possible. Easy to paddle, easy to turn, easy to roll, easy to edge and ferry. Easy to surf, and easy to stay high and dry when running small drops. It's small, so it's light to carry and and feels light to paddle. The displacement bow morphs fluidly and softly into a rounded hull in the tail with light rails, so it'll surf better and help kids with caving into eddies, without affecting predictability and general forgiveness.

**Length: 160 cm/5'3" | Width: 51 cm/20" | Weight: 8.4 kg/18.5 lb | Volume: 100 L/26 G**

[SOULWATERMAN.COM](http://SOULWATERMAN.COM)

# PADDLER GUIDE.com

The one-stop shop website for paddlesports gear addicts

# Palm®

**gear for paddlers**

— SINCE 1979 —

[palmequipmenteurope.com](https://palmequipmenteurope.com)

PALM SOLO VEST

# Sustainability starts with us.

And by us, we mean all of us.

Ethical Trading  
Initiatives

100% recycled  
cardboard

Over 50,000 plastic  
bags saved per year

Carbon offset  
shipping

New eco-friendly  
line in 2023

1% of All Direct Sales to  
Watershed Conservation

We have to preserve and cherish the environment, not only for the preservation of paddling but for the health and well-being of the planet. Freshwater is our most precious resource.

We're in this together. Every member of the paddling community must fight for a sustainable future and preserve the waterways now and for the future.

*For Life On The Water*
